

# Énergie NB Power

June 4, 2014

New Brunswick Energy and Utilities Board  
P.O. Box 5001  
15 Market Square, Suite 1400  
Saint John, NB  
E2L 4Y9

Dear Sir/Madam:

**Re: Matter 245 - NB Power Reliability Standard VAR-001-2-NB-0**

---

In regards to Matter 245, NB Power submits a request to the Board for withdrawal of item 2(a)(19) of NB Power's application seeking an Order from the Board,

“approving modifications of Board approved reliability standard VAR-001-2 by approving NB Appendix VAR-001-2-NB-0”

This request is being made as a result of the Board's retirement of VAR-001-2 on March 31, 2014. NB Power's application was submitted on March 20, 2014 which was prior to retirement of the reliability standard. As the standard is retired, it would be moot to approve modifications as they would never come into effect. Approving the modifications would also create administrative burden as NB Power would later seek explicit approval to retire the NB Appendix VAR-001-2-NB-0 in a separate application. NB Power plans to file for approval of similar modifications to the Board approved reliability standard VAR-001-3 which replaced VAR-001-2.

Trusting this is satisfactory.

Yours truly,

Lori Clark  
Executive Director, Human Resources and Regulatory Affairs  
New Brunswick Power Corporation

Encl.
