Basis for Intervening:

Basis for Intervening:

Doc-Less NERC Motion to Intervene in Docket No. RD14-6-000.

The North American Electric Reliability Corporation ("NERC") was formed to serve as the electric reliability organization ("ERO") authorized by Section 215 of the Federal Power Act. NERC was certified as the ERO by the Commission's Order issued July 20, 2006, in Docket No. RR06-1-000. NERC has a substantial interest in this proceeding as it has been directed to develop reliability standards requiring owners and operations of the Bulk-Power System to address risks due to physical security threats and vulnerabilities. No other party can adequately represent NERC's interest. Therefore, it is in the public interest to permit this intervention.
