Re: NERC Notice of Penalty regarding Unidentified Registered Entity
FERC Docket No. NP11-206-000

Dear Ms. Bose:

On June 29, 2011, the North American Electric Reliability Corporation (“NERC”) submitted a Notice of Penalty regarding twenty-one violations for an Unidentified Registered Entity (“URE”). By this filing, NERC supplements the record by providing additional support for the penalty determination. In further support of the penalty determination, the Northeast Power Coordinating Council, Inc. (“NPCC”) confirms that it considered the enumerated instances as repeat violations and aggravating factors to the penalty determination.

Request for Confidential Treatment

Information in and certain attachments to the instant Notice of Penalty include privileged and confidential information as defined by the Commission’s regulations at 18 C.F.R. Part 388 and orders, as well as NERC Rules of Procedure including the NERC CMEP Appendix 4C. Specifically, this includes non-public information related to certain Reliability Standard violations, certain Regional Entity investigative files, Registered Entity sensitive business and confidential information exempt from the mandatory public disclosure requirements of the Freedom of Information Act, 5 U.S.C. 552, and should be withheld from public disclosure.

In accordance with the Commission’s Rules of Practice and Procedure, 18 C.F.R. § 388.112, a non-public version of the information redacted from the public filing is being provided under separate cover.

Because certain of the attached documents are deemed “confidential” by NERC, Registered Entities and Regional Entities, NERC requests that the confidential, non-public information be provided special treatment in accordance with the above regulation.
