

# Standards Committee Nomination Form

2015-2016 Term Elections

The North American Electric Reliability Corporation (NERC) [Standards Committee](#) (SC) has two representatives from each of the 10 industry segments. The SC representatives are elected by the segment they represent. The SC reports to the NERC Board of Trustees and oversees the development of NERC Reliability Standards by performing tasks governed by the [Standard Processes Manual](#), the [Standards Committee Charter](#), and the SC Work Plan.

Any person may nominate any other person to serve on the SC, with the limitation that the nominee must be employed by or an agent of an entity that is registered in that segment of the [Registered Ballot Body](#) (RBB). The nominee is not required to be the RBB representative from that organization.

Nominations are currently being held for each of the 10 segments. Election of representatives is governed by the NERC Rules of Procedure, Appendix 3B: [Procedures for Election of Members of the Standards Committee](#).

You may use this form to nominate candidates for segments 1 through 10. You may submit more than one nomination. Please, however, use one form per nomination. You are welcome to nominate yourself.

Nominee's name and contact information.	
Name	Barry Lawson
Job Title	Associate Director, Power Delivery & Reliability
Organization	National Rural Electric Cooperative Association (NRECA)
Telephone	703-907-5781

Please indicate the industry segment number (1-10) in which the nominee seeks election:  
 Segment 4 – Transmission Dependent Utility (TDU)

Please provide a brief summary of the nominee’s qualifications for this SC position. (The summary should be no longer than a single page of single-spaced text.)

My primary role at NRECA is to track and participate in a wide variety of NERC activities. I have been doing this for over 13 years, and since NERC became the ERO, my coverage of NERC activities has greatly expanded. My current focus is on NERC governance and policy issues, including accurate use of the NERC Standards Process Manual (SPM), participating in SC meetings/activities, and serving on two standard drafting teams (BES Definition as Vice Chair and Back-up Control Centers as member). I am deeply aware of the the current issues and challenges that NERC and the industry are facing. I look forward to participating in SC activities as a voting member.

My background includes 10 years at Dominion Virginia Power as a distribution engineer, 4 years at EEI in power supply policy, 2 years in transmission policy consulting at KEMA and the last 13 years at NRECA focusing on reliability, transmission policy and critical infrastructure protection issues.

Please complete this form no later than **Wednesday, October 22, 2014** and send to [eleonor.crouch@nerc.net](mailto:eleonor.crouch@nerc.net).
