

Standards Committee Nomination Form

Special Election - Segment 9

The [Standards Committee](#) (SC) has two representatives from each of the ten industry segments. The SC representatives are elected by the segment they represent. The SC reports to the NERC Board of Trustees and oversees the development of NERC Reliability Standards by performing tasks governed by the [Standard Processes Manual](#), the [SC Charter](#), and the [SC Work Plan](#).

Any person may nominate any other person to serve on the SC, with the limitation that the nominee must be employed by or an agent of an entity that is registered in that segment of the [Registered Ballot Body](#) (RBB). The nominee is not required to be the RBB representative from that organization.

Nominations are currently being held to fill the upcoming vacancy in Segment 9. Election of representatives is governed by the default [Election of Members of the NERC Standards Committee Procedure](#).

You may use this form to nominate your candidate. You may submit more than one nomination. Please, however, use one form per nomination. You are welcome to nominate yourself.

Nominee's name and contact information.	
Name	Alexander Vedvik
Job Title	Senior Electrical Engineer
Organization	Public Service Commission of Wisconsin
Telephone	608-297-9099
Email	Alexander.Vedvik@wisconsin.gov

--	---	-----------------------------

Person making this nomination (if different from nominee).	
Name	Greg White
Organization	National Association of Regulatory Utility Commissioners
Telephone	202-898-2208
Email	gwhite@naruc.org

Please provide a brief summary of the nominee's qualifications for this SC position. (The summary should be no longer than a single page of single-spaced text.)

Alexander Vedvik is an electrical engineer at the Public Service Commission of Wisconsin. He has been working with NERC Standards and Compliance since starting at the Commission in 2013. Alex is applying to fill the remaining year on 2-year term 2016-2017.

Alex has been involved in a wide range of Commission activities including: review and analysis of major electric utility projects (encompassing both generation and transmission projects), monitoring and ensuring Wisconsin utilities' compliance with NERC reliability standards, utility cybersecurity monitoring and evaluation, coordination with the Midcontinent Independent System Operator Inc., and an extensive analysis of the impacts of the Clean Power Plan. In addition, he serves as Wisconsin's representative on the NARUC Staff Subcommittee on Energy Resources and the Environment.

Alex has a BS degree in Electrical Engineering (with a Power Emphasis) and Economics from the University of Wisconsin-Madison.

Please complete this form and send to [Mat Bunch](#) by **Monday, July 18, 2016**.
