

Standards Committee Nomination Form

2016-2017 Term Elections

The North American Electric Reliability Corporation (NERC) [Standards Committee](#) (SC) has two members from each of the ten industry segments. Each SC member is elected by the segment he or she represents. The SC reports to the NERC Board of Trustees and oversees the development of NERC Reliability Standards by performing tasks governed by the [Standard Processes Manual](#), the [Standards Committee Charter](#), and the [SC Work Plan](#).

Any person may nominate any other person to serve on the SC, with the limitation that the nominee must be employed by or an agent of an entity that is registered in that segment of the [Registered Ballot Body](#) (RBB) of the [Standards Balloting and Commenting System](#). The nominee is not required to be the RBB representative from that organization.

Nominations are currently being accepted for each of the ten segments. Election of representatives is governed by the NERC Rules of Procedure, Appendix 3B: [Procedures for Election of Members of the Standards Committee](#).

You may use this form to nominate candidates for segments 1 through 10. You may submit more than one nomination. Please, however, use one form per nomination. You are welcome to nominate yourself.

Please provide a brief summary of the nominee’s qualifications for this SC position. (The summary should be no longer than a single page of single-spaced text.)

Quadrilingual (English, French, Chinese and Cambodian) graduate from the University of McGill, Po Bun Ear is a member of the Institute for Electrical Power Engineering. With proven organizational skills, he has ample experience in System Protection for Reliable Operation as well as fault analysis.

Po Bun Ear is team leader of Fault and Protection System Analysis for Hydro-Québec TransÉnergie. He has analyzed over 300 events including major fault analysis where he produced Corrective Action Plans to improve Hydro-Québec TransÉnergie's system, including its Bulk-Power System.

Po Bun Ear is also an active participant for several of NERC and NPCC's activities. He is currently a member of the Standard Drafting Team for Project 2007-06.02 and NPCC's SP7. He is an observer for Project 2007-06, SMS (Synchronized Measurement Subcommittee), PRC-012 (RAS) and PRC-002-NPCC-02 (Regional Disturbance Monitoring). In addition, Po Bun Ear is Hydro-Québec TransÉnergie's Subject Matter Expert for PRC-002, PRC-018 PRC-004, PRC-016, and PRC-001.

His professional work experience and his implication in these technical committees, subcommittees and working groups have allowed him to acquire standards development skills that can be beneficial to the Standard Committee.
