

Standards Committee Nomination Form

Special Election – Segment 5

The North American Electric Reliability Corporation (NERC) [Standards Committee](#) (SC) has two members from each of the ten industry segments. Each SC member is elected by the segment he or she represents. The SC reports to the NERC Board of Trustees and oversees the development of NERC Reliability Standards by performing tasks governed by the [Standard Processes Manual](#), the [Standards Committee Charter](#), and the [SC Work Plan](#).

Anyone may submit a nomination. To be eligible for nomination, a nominee shall be an employee or agent of an entity belonging in the applicable Segment. **To allow verification of affiliation, a nominee must be a registered user in the NERC [Registered Ballot Body](#) (RBB).** It is not required that the nominee be the same person as the entity's RBB representative for the applicable Segment. Instructions are provided in [Appendix 3B](#) of the NERC Rules of Procedure – *Procedure for Election of Members of the NERC Standards Committee Procedure*. Completed nomination forms will be posted on the [SC Nomination and Elections webpage](#).

Nominations are currently being held to fill the vacancy for the remainder of the 2020-2021 term in Segment 5. Election of representatives is governed by the [Election of Members of the NERC Standards Committee Procedure](#).

Please use this form to nominate candidates. You may submit more than one nomination. Please, however, use one form per nomination. You are welcome to nominate yourself

Person making this nomination (if different from nominee).	
Name	Same as nominee
Organization	
Telephone	
Fax	
Email	
Mailing Address	

Please indicate the industry segment number (1-10) in which the nominee seeks election:
05-Electric Generation

Please provide a brief summary of the nominee's qualifications for this SC position. (The summary should be no longer than a single page of single-spaced text.)

Steve Arreguin has over 30 years' experience in regulatory compliance, plant management, project engineering, Lean-Six-Sigma, and thermal system analysis. Steve is currently the IPSC Senior Compliance Manager responsible for the fleetwide NERC Compliance program, internal controls, and reliability.

Mr. Arreguin joined IHI Power Services Corp. from Exelon/Constellation Energy where he served as the Biomass Plant Manager for Pacific Ultrapower Chinese Station, ultimately responsible for plant operations and compliance. During his tenure at Constellation, he led the RB Rocklin and RB Fresno Biomass Turn-Around Project team to complete a \$24M project on schedule and within budget. The Biomass Turn-Around Project was featured in Power

Magazine, December 2009 issue. Mr. Arreguin also successfully completed a \$4.2M air-cooled condenser replacement project on schedule and within budget.

Prior to joining Constellation Energy, Mr. Arreguin managed the HB Fuller Maintenance Group and wastewater treatment facility. He was responsible for a two-million-dollar annual budget including all capital improvements and was responsible for plant safety and environmental compliance.

Mr. Arreguin joined the HB Fuller Company from Aerojet Propulsion Division. He served as the Applied Engineering Program Manager for the Standard Missile Program and developed program budgets, wrote technical proposals. He began his career as a thermal analyst responsible for designing the cooling systems for the hypersonic test facility and a scramjet engine, also developed thermal math models to predict satellite equipment temperatures.

Mr. Arreguin completed a Master's in mechanical engineering degree and a Master's in Public Administration degree, both from the University of Southern California. He holds a Bachelor of Science degree in Mechanical Engineering from UCLA. Mr. Arreguin has also served as adjunct faculty for the University of Phoenix.

Please complete this form no later than **Monday, May 24, 2021** and send to [Katrina Blackley](#).
