

Standards Committee Election 2022-2023 Term Election – Segments 1-10 (Two-year term)

TO: REGISTERED BALLOT BODY
STANDARDS
NERC ROSTER

Registered Ballot Body (RBB) members and others interested in NERC Reliability Standards are encouraged to submit nominations for industry segment representatives on the Standards Committee (SC). Reliability Standards are mandatory for all bulk power system owners, operators, and users in North America, and the SC’s oversight role is therefore increasingly important. The SC consists of two members from each of the ten Industry Segments that make up the RBB. In addition, [Appendix 3B](#) of the Rules of Procedure contains special provisions to be used to achieve a balance of representation between the United States and Canada. The SC is elected by industry stakeholders and reports directly to the NERC Board of Trustees. The SC meets up to twelve times each year, with four face-to-face meetings and the remainder by conference call. SC members who cannot travel to the meetings may participate by conference call. The [Standards Committee Charter](#) provides a description of the SC’s responsibilities.

There are members representing 10 segments whose term will conclude at the end of December 2021. Therefore, an election will be held to fill the two-year terms (2022-2023) for each of the ten segments. When submitting a nomination form, indicate the segment you are interested in for membership. Please see Table 1 below for the members whose terms will conclude.
