

Standards Committee Nomination Form

2016-2017 Term Elections

The North American Electric Reliability Corporation (NERC) [Standards Committee](#) (SC) has two members from each of the ten industry segments. Each SC member is elected by the segment he or she represents. The SC reports to the NERC Board of Trustees and oversees the development of NERC Reliability Standards by performing tasks governed by the [Standard Processes Manual](#), the [Standards Committee Charter](#), and the [SC Work Plan](#).

Any person may nominate any other person to serve on the SC, with the limitation that the nominee must be employed by or an agent of an entity that is registered in that segment of the [Registered Ballot Body](#) (RBB) of the [Standards Balloting and Commenting System](#). The nominee is not required to be the RBB representative from that organization.

Nominations are currently being accepted for each of the ten segments. Election of representatives is governed by the NERC Rules of Procedure, Appendix 3B: [Procedures for Election of Members of the Standards Committee](#).

You may use this form to nominate candidates for segments 1 through 10. You may submit more than one nomination. Please, however, use one form per nomination. You are welcome to nominate yourself.

Nominee's name and contact information.

Telephone	360-418-8981
Fax	
Email	jwcook@bpa.gov
Mailing Address	5411 N.E. Highway 99 Vancouver, WA 98663

Please indicate the industry segment number (1-10) in which the nominee seeks election:

1 – Transmission Owner

Please provide a brief summary of the nominee’s qualifications for this SC position. (The summary should be no longer than a single page of single-spaced text.)

Joe Carluccio is Bonneville Power Administration’s Transmission Internal Operations Lead for NERC Reliability Standards. Of the fourteen NERC registrations, BPA is registered as all but DP, GO/P, RC and RSG. He is responsible for managing nearly 100 BPAs Planning and Operations subject matter experts’ participation in NERC and WECC external forums. Activities include working with senior staff and experts to develop technical comments and voting positions for NERC Standards under development. Also, Joe manages and oversees the staff that conducts analyses of NERC Standards and requirements, identifying impacts to business and reliability objectives to determine the best course of action for reliability compliance. Further, Joe was recently selected to lead a key BPA strategic effort to establish

transmission-wide program management practices to interpret, assess, and implement new or revised NERC reliability standards that adhere with NERC and WECC risk-based compliance models.

While Joe has no prior experience on NERC committees or subcommittees, he is very familiar with NERC's PMOS, processes and standards procedures. The experience Joe can bring to the NERC Standards Committee is his understanding of the real-life impacts new and revised standards have on utility operations. Leveraging Joe's project management experience can provide the NERC Standards Committee with a skill set that will aid the committee decision making and collaboration efforts.

Mr. Carluccio has been employed by BPA for 6 years. He began his career as an analyst in BPA's Power and Customer Service Departments. He holds a Masters Degree in Public Administration and is a certified Project Management Professional.

Please complete this form no later than **Monday, October 19, 2015** and send to monica.benson@nerc.net.
