

Implementation Plan for EOP-008-1

Prerequisite Approvals

There are no other Reliability Standards or Standard Authorization Requests (SARs), in progress or approved, that must be implemented before this standard can be implemented.

EOP-008-1 – Loss of Control Center Functionality

Revision to Sections of Approved Standards and Definitions

There are no proposed revisions to requirements in other already approved standards and no new or revised definitions in the proposed standard.

Compliance with Standard

EOP-008-1: Loss of Control Center Functionality	Functions That Must Comply With the Associated Requirements		
	Reliability Coordinator	Balancing Authority	Transmission Operator
R1	X	X	X
R2	X	X	X
R3	X	✗	✗
R4	✗	✗	✗
R5	✗	X	X
R6	X	X	X
R7	X	X	X
R8	X	X	X
R9	✗	✗	✗

Effective Date

The effective date is the date entities are expected to meet the performance identified in this standard.

Note that entities have been given several months beyond the regulatory approval date (preparation time) to fully comply with the requirements.

EOP-008-0 is retired when EOP-008-1 goes into effect.

All requirements of EOP-008-1 will go into effect the first day of the first calendar quarter twenty-four months after applicable regulatory approval. In those jurisdictions where no regulatory approval is required, the standard shall become effective on the first day of the first calendar quarter twenty-four months after Board of Trustees adoption.
