

## Standards Announcement

Comment Period Open

September 11–October 26, 2009

Now available at: [http://www.nerc.com/filez/standards/System\\_Protection\\_Project\\_2007-06.html](http://www.nerc.com/filez/standards/System_Protection_Project_2007-06.html)

### Project 2007-06: System Protection Coordination

The System Protection Coordination Standard Drafting Team is seeking comments on its first draft of the following proposed standard **until 8 p.m. EDT on October 26, 2009**:

- PRC-001-2 — System Protection Coordination

The drafting team has also posted a reference document and implementation plan.

### Instructions

Please use this [electronic form](#) to submit comments. If you experience any difficulties in using the electronic form, please contact Lauren Koller at [Lauren.Koller@nerc.net](mailto:Lauren.Koller@nerc.net). An off-line, unofficial copy of the comment form is posted on the project page:

[http://www.nerc.com/filez/standards/System\\_Protection\\_Project\\_2007-06.html](http://www.nerc.com/filez/standards/System_Protection_Project_2007-06.html)

### Next Steps

The drafting team will draft and post responses to comments received during this period. The drafting team will also determine whether to post the standard for an additional comment period or seek approval from the Standards Committee to proceed to balloting.

### Project Background

The purpose of this project is to address the planning and non-operational issues identified by the System Protection and Control Task Force of the NERC Planning Committee (in its report on PRC-001) and issues identified by FERC in Order 693. The project will include upgrades to bring the revised standard into conformance with the latest version of the ERO Rules of Procedure. More information is posted on the project page.

### Applicability of Standards in Project

Transmission Owners

Generator Owners

Distribution Providers that own transmission Protection Systems or that interconnect with Generator Owners

Specific facilities (see proposed standard for more information)

### Standards Development Process

The [Reliability Standards Development Procedure](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.
