

Standards Announcement

Project 2007-06.2 Phase 2 of System Protection Coordination

Nomination Period Open through February 9, 2016

[Now Available](#)

Nominations are being sought for additional standard drafting team (SDT) members, as explained below, through **8 p.m. Eastern, Tuesday, February 9, 2016**.

Use the [electronic form](#) to submit a nomination. If you experience any difficulties in using the electronic form, contact [Wendy Muller](#). An unofficial Word version of the nomination form is posted on the [Standard Drafting Team Vacancies](#) page and the [project page](#).

By submitting a nomination form, you are indicating your willingness and agreement to actively participate in the SDT meetings if appointed by the Standards Committee. If appointed, you are expected to attend most of the face-to-face meetings, as well as those held via conference calls.

The time commitment for this project is expected to be up to two face-to-face meetings per quarter (on average three full working days each meeting) with conference calls scheduled as needed to meet the agreed upon timeline the SDT sets forth. Drafting teams also may have side projects, either individually or by subgroup, to present to the larger team for discussion and review. Lastly, an important component of the SDT effort is outreach. Members of the team should be conducting outreach during development prior to posting to ensure all issues can be addressed.

Background

This solicitation for nominations is to supplement the Phase 2 System Protection Coordination SDT with individuals experienced in training. The current SDT is addressing Requirements R1, R2, R5, and R6 of PRC-001-1.1(ii). The current SDT is considering addressing Requirement R1 of PRC-001-1.1(ii) through requirements to provide training. Therefore, NERC is supplementing the SDT with subject matter experts with experience in the Personnel, Performance, Training, and Qualifications (PER) standards.

NERC is seeking individuals from the United States and Canada who possess experience in one or more of the following areas:

- Systematic approach to training
- Operations and/or operations planning background
- Personnel Performance, Training, and Qualifications (“PER”) family of Reliability Standards

Next Steps

The Standards Committee may appoint members to the team as early as March 2016. Nominees will be notified shortly after they have been appointed.

For information on the Standards Development Process, refer to the [Standard Processes Manual](#).

For more information or assistance, contact Standards Developer, [Scott Barfield-McGinnis](#) (via email), or at (404) 446-9689.
