OTHER ACTIVE COMMENT PERIODS

Posted for Comment			
Posting	Action	Start Date	End Date
<p>Notice of Draft Posting and Request for Comments for Five-Year Electric Reliability Organization Performance Assessment: NERC, as the Electric Reliability Organization (ERO) pursuant to Section 215 of the Federal Power Act, is required to submit an assessment of how it meets the statutory and regulatory criteria for ERO certification to FERC.</p> <p>NERC hereby posts its draft Five-Year ERO Performance Assessment Report for industry review and respectfully requests comments on the posted documents.</p> <p>NERC intends to present a revised draft of the proposed Five-Year ERO Performance Assessment Report to the NERC Board of Trustees at its May 8, 2019 meeting. Although the comment period does not close until April 15, 2019, commenters are respectfully requested to submit their comments sooner, if possible, in order to provide additional time for NERC staff and the Regional Entities to consider them.</p> <p>Please note that all original comments will be included as an exhibit in the Five-Year ERO Performance Assessment Report filed with FERC on or before July 22, 2019.</p>	<p>Submit comments electronically to 5YPA@nerc.net.</p>	04/01/19	04/15/19
<p>Comment Period Open for WECC Regional Variance for IRO-002-5 - Reliability Coordination – Monitoring and Analysis: The Western Electricity Coordinating Council (WECC) requested that NERC post the WECC Regional Variance for IRO-002-5 – Reliability</p>	<p>Use the electronic form to submit comments. If you experience any difficulties in using the electronic form, contact Nasheema Santos.</p>	03/07/19	04/22/19

<p>Coordination – Monitoring and Analysis for industry review and comment in accordance with the NERC Rules of Procedure. As the Western Interconnection moves to a multi-Reliability Coordinator (RC) environment, focused coordination of those RCs will become critical. WECC developed a proposed Regional Variance to NERC Reliability Standard IRO-002-5 – Reliability Coordination – Monitoring and Analysis to ensure coordination between each of those RCs.</p> <p>The proposed Variance does not change any of the continent-wide Requirements. The WECC Board of Directors adopted the proposed Variance on March 6, 2019. Prior to NERC Board adoption, the proposed Variance will be inserted into proposed Reliability Standard IRO-002-6, which is currently being balloted as part of the ongoing Project 2018-03 – Standards Efficiency Retirements project.</p> <p>The standard was posted twice for comment by WECC, most recently from November 28, 2018–January 2, 2019, and the comments received can be viewed here. Documents and information about this project are available on the WECC’s Standards Under Development page.</p>			
<p>Comment Period Open for Application Guide for Modeling Turbine-Governor and Active Power Frequency Controls in Stability Studies Draft Reliability Guideline: The NERC Power Plant Modeling and Verification Task Force (PPMVTF) developed the draft Reliability Guideline to address potential issues in stability and primary frequency response simulations that can arise from application of turbine-governor models. The guideline provides recommended modeling practices to address turbine-governor model fidelity issues,</p>	<p>Submit comments via email using the comment form.</p>	<p>03/11/19</p>	<p>04/26/19</p>

<p>including parameterization, deadband modeling, and modeling of non-responsive units. The guidance is intended to clarify key aspects of how turbine-governor models are applied in an effort to improve the accuracy of interconnection-wide simulations. The guideline is primarily intended for Generator Owners (GOs), Generator Operators (GOPs), Transmission Planners (TPs), Planning Coordinators (PCs), and power plant modelers. The NERC Planning Committee (PC) reviewed the draft guideline and authorized posting for industry comment.</p>

STANDARDS NEWS

Survey Comment Period Open for Project 2017-01 – Modifications to BAL-003-1.1

The standard drafting team (SDT) is looking to gain industry feedback regarding issues identified in Project 2017-01 – Modifications to BAL-003-1.1 SAR for Phase II.

The informal comment period for this survey is seeking inputs into the SDT’s Phase II modifications to BAL-003-2, as identified in the SAR:

- Make the Interconnection Frequency Response Obligation (IFRO) calculations and associated allocations: 1) more reflective of current conditions; 2) consider all characteristics affecting Frequency Response (e.g., load response, mix and type of generation); 3) include all applicable entities; and 4) be as equitable as possible; and
- Frequency Response Measure (FRM): 1) ensure that over-performance by one entity does not negatively impact the evaluation of performance by another; 2) measure types/periods of response in addition to secondary Frequency Response, particularly primary Frequency Response; 3) include all applicable entities; and 4) make allocations as equitable as possible.

NERC has been studying Frequency Response for several years, with the most recent study completed in 2018. The results of the studies have not identified any significant detrimental changes in Frequency Response on any Interconnection. This does not mean that potential changes in the resource mix and operation of the grid will not impact the response currently seen on the interconnections. Because of comments

Quick Links

- [2017–2019 Reliability Standards Development Plan](#)
- [Quality Review Application](#)
- [One-Stop Shop \(Status, Purpose, Implementation Plans, FERC Orders, RSAWs\)](#)

received, the drafting team is looking at several different areas of BAL-003 that could be changed to potentially improve the reliability and compliance process.

The Project 2017-01 – Modifications to BAL-003-1.1 SDT seeks industry input on these issues. Please complete the [survey](#) by 8:00 p.m. Eastern, Wednesday, April 17, 2019.

GENERAL COMPLIANCE AND ENFORCEMENT NEWS

There is no additional Compliance or Enforcement news to report for this week.

STANDARDS SUBJECT TO FUTURE ENFORCEMENT

Please refer to the [U.S. Effective Dates page](#) for more detail on the standards listed below.

U.S. Effective Dates for Reliability Standards	
U.S. Effective Date	Standard(s)
July 1, 2019	PER-003-2 – Operating Personnel Credentials
	TPL-007-3 – Transmission System Planned Performance for Geomagnetic Disturbance Events (Requirements R1 and R2)
January 1, 2020	CIP-003-7 – Cyber Security – Security Management Controls
	PRC-026-1 – Relay Performance During Stable Power Swings (Requirements R2–R4)
	TPL-007-3 – Transmission System Planned Performance for Geomagnetic Disturbance Events (Requirements R5, 5.1, 5.2, R9, 9.1, and 9.2)

July 1, 2020	CIP-005-6 – Cyber Security – Electronic Security Perimeter(s) CIP-010-3 – Cyber Security – Configuration Change Management and Vulnerability Assessments CIP-013-1 – Cyber Security – Supply Chain Risk Management PRC-002-2 – Disturbance Monitoring and Reporting Requirements (50% compliance for Requirements R2–R4, R6–R11)
October 1, 2020	PER-006-1 – Specific Training for Personnel PRC-027-1 – Coordination of Protection Systems for Performance During Faults
January 1, 2021	PRC-012-2 – Remedial Action Schemes
July 1, 2021	TPL-007-3 – Transmission System Planned Performance for Geomagnetic Disturbance Events (Requirements R11 and R12)
January 1, 2022	TPL-007-3 – Transmission System Planned Performance for Geomagnetic Disturbance Events (Requirements R6, 6.1–6.4, R10, 10.1–10.4)
July 1, 2022	PRC-002-2 – Disturbance Monitoring and Reporting Requirements (100% compliance for Requirements R2–R4, R6–R11)
January 1, 2023	TPL-007-3 – Transmission System Planned Performance for Geomagnetic Disturbance Events (Requirements R3, R4, 4.1. 4.1.1–4.1.2, 4.2, 4.3, 4.3.1, R8, 8.1, 8.1.1–8.1.2, 8.3, 8.4, and 8.4.1)
January 1, 2024	TPL-007-3 – Transmission System Planned Performance for Geomagnetic Disturbance Events (Requirements R7, 7.1, 7.2, 7.3, 7.3.1–7.3.2, 7.4, 7.4.1–7.4.3, 7.5, and 7.5.1.)

BOARD OF TRUSTEES AND FERC ACTION

NEW FERC Open Meeting Agenda

FERC has posted the [agenda](#) for the April 18 open meeting. There is item of interest to NERC:

- Agenda Item E-5: RM18-20-000 – *Critical Infrastructure Protection Reliability Standard CIP-012-1 – Cyber Security – Communications between Control Centers*

UPCOMING EVENTS

For information about other NERC events, such as meetings and conference calls for standard drafting teams, other standing committees, subcommittees, task forces, and working groups, please refer to the [NERC calendar](#).

Workshops and Conferences

- NERC–NATF–EPRI 2019 Power System Modeling Conference Workshop – June 18–19, 2019, Novi, MI | [Register](#)

- **NEW** 2019 Industry Standards and Compliance Workshop – July 23–24, 2019, Minneapolis, MN | **Registration Details Coming Soon**

Webinars

- Project 2018-04 – Modifications to PRC-024-2 Webinar – 1:00–2:00 p.m. Eastern, April 30, 2019 | [Register](#)
- ERO Enterprise Webinar Series: Violation Themes – 1:00–2:00 p.m. Eastern, April 30, 2019 | [Register](#)

Standing Committee Meetings and Conference Calls

- Standards Committee Conference Call – 1:00–3:00 p.m. Eastern, April 17, 2019 | [Register](#) | **NEW** [Agenda Package](#)
- Board of Trustees, Board Committees, and Member Representatives Committee Meetings – May 8–9, 2019, St. Louis, MO | [Register](#)
- **NEW** Operating Committee, Planning Committee, and Critical Infrastructure Protection Committee Meetings – June 4–5, 2019, Orlando, FL | [Register for OC](#) | [Register for PC](#) | [Register for CIPC](#) | [Register for Hotel](#)
- **NEW** Compliance and Certification Committee Meeting – June 18–19, 2019, Chicago | **Registration Details Coming Soon**

Standard Drafting Team Meetings and Conference Calls

The [Standards calendar](#) provides dial-in information for the in-person meetings below. The calendar also provides information about conference calls that drafting teams may hold in addition to in-person meetings.

- Project 2016-02 – Modifications to CIP Standards Drafting Team Meeting – April 16–18, 2019, Atlanta | [Register](#)
- Project 2018-03 – Standards Efficiency Review Drafting Team Meeting – April 17–18, 2019, Atlanta | [Register](#)
- **NEW** Project 2015-09 – Establish and Communicate System Operating Limits Drafting Team Conference Call – 1:00–3:00 p.m. Eastern, April 17, 2019 | [Register](#)
- **NEW** Project 2017-01 – Modifications to BAL-003-1.1 Meeting – April 30–May 2, 2019, Spokane, WA | [Register](#)
- **NEW** Project 2018-04 – Modifications to PRC-024-2 Meeting – June 18–20, 2019, Montreal, Quebec | [Register](#)

ABOUT THE STANDARDS, COMPLIANCE, AND ENFORCEMENT BULLETIN

This weekly bulletin compiles a list of standards, compliance, and enforcement projects with actionable deadlines, as well as upcoming events, recently posted resources, other NERC documents posted for comment, and other relevant news and information. Please email [Amy Desselle](#) with feedback on this bulletin. The current bulletin and old bulletins are available under “Program News” on both the [Standards home page](#) and the [Compliance & Enforcement home page](#).

If you would like to receive this bulletin or be added to the distribution list for a particular project, please submit a ticket through the [Help Desk](#). Select the “NERC Email Distribution List” option under the “Applications” menu. In the Description Box, please specify which lists you would like your email address to be added to or note which announcements you would like to receive. This bulletin is distributed to several lists, including the Standards distro list (Standards-specific announcements) and the NERC-info distro list (most NERC announcements).
