**Re: Supplemental Filing to the North American Electric Reliability Corporation's Reliability Standards Development Plan 2011-2013 Informational Filing Pursuant to Section 310 of the NERC Rules of Procedure**

Dear Mr. Thomson:

On April 13, 2011, NERC filed an informational filing containing the NERC Reliability Standards Development Plan ("RSDP") for 2011-2013. Attached please find the additional development record information NERC promised to provide in its RSDP filing of April 13, 2011.

NERC has provided the following documents:

- 1.) The Draft Project Prioritization Tool, posted for public comment from January 21, 2011 to February 10, 2011, included as **Exhibit A**.
- 2.) The Reference Document for the Project Prioritization Tool, posted with the Draft tool, included as **Exhibit B**.
- 3.) The announcement of the posting of the Tool, included as **Exhibit C**.
- 4.) A report of comments received and responses provided to commenters, included as **Exhibit D**.
- 5.) The Final Project Prioritization Tool, included as **Exhibit E**.

Also note that the previously filed version of the RSDP (the March 10, 2011 version filed on April 13, 2011) erroneously included a link to an older version of the Project Prioritization Tool. We have corrected the RSDP to link to the correct document, included in footnote 3 of the RSDP. An updated RSDP with the correct link to the Final Project Prioritization Tool in footnote 3 is attached to this filing as **Exhibit F**.

Respectfully submitted,

/s/ Holly A. Hawkins  
Holly A. Hawkins  
Attorney for North American Electric Reliability  
Corporation
