Re: NERC Notice of Penalty regarding Platte River Power Authority  
FERC Docket No. NP10-110-000

Dear Ms. Bose:

On June 2, 2010, the North American Electric Reliability Corporation (“NERC”) submitted a Notice of Penalty regarding a violation of Reliability Standard TOP-006-1 Requirement (R) 6 for Platte River Power Authority (PRPA). By this filing, NERC clarifies that even though PRPA submitted both a self-report and self-certification on January 9, 2009, the Western Electricity Coordinating Council (WECC) determined that the appropriate reporting method for this violation was the self-certification.

By this filing, NERC clarifies that all references to self-report in the Notice of Penalty should be self-certification. Additionally, because the entity was required to submit a self-certification, it did not get credit for the self-report when the penalty was determined.

Accordingly, NERC respectfully requests that the Commission accept this supplemental filing and issue an order consistent with the comments provided herein.

Respectfully submitted,

*/s/ Rebecca J. Michael*
