Re: Errata to Petition of the North American Electric Reliability Corporation for Approval of Proposed Texas Reliability Entity Regional Reliability Standard IRO-006-TRE-1 — IROL and SOL Mitigation in the ERCOT Interconnection, *North American Electric Reliability Corporation*, FERC Docket No. RD12-1-000

Dear Ms. Bose:

On February 1, 2012, NERC filed a *Petition for Approval of Proposed Texas Reliability Entity Regional Reliability Standard IRO-006-TRE-1 — IROL and SOL Mitigation in the ERCOT Interconnection*. This filing is still pending before FERC.

It has come to NERC's attention that on page 1 of the filing, NERC requests that FERC approve Regional Reliability Standard IRO-006-TRE-1 and "make it effective upon FERC approval." This is in error, and page 1 of the filing should read "NERC requests the standard become effective upon the first day of the first calendar quarter following the effective date of a Final Rule in this docket."

Accordingly, NERC respectfully requests that the Commission take note of this errata filing, and issue an order consistent with NERC's filings submitted in this proceeding.

Respectfully submitted,

/s/ Andrew M. Dressel

Andrew M. Dressel

*Attorney for North American Electric Reliability
Corporation*
