Re: NERC Notice of Penalty regarding Ebensburg Power Company
FERC Docket No. NP10-89-000

Dear Ms. Bose:

On March 31, 2010, the North American Electric Reliability Corporation (“NERC”) submitted a Notice of Penalty regarding a violation of Reliability Standard PRC-005-1 Requirement (R) 2, specifically R2.1 for Ebensburg Power Company (Ebensburg). By this filing, NERC clarifies that Ebensburg’s monthly testing of the battery cells was on a rolling five-year cycle, based on information received from ReliabilityFirst Corporation. Although the monthly tests were based on a representative sample from the battery bank, quarterly tests were performed on every battery cell four times a year.

Accordingly, NERC respectfully requests that the Commission accept this supplemental filing and issue an order consistent with the comments provided herein.

Respectfully submitted,

/s/ Rebecca J. Michael
