## Organizational Overview

Southwest Power Pool, Inc. (SPP), founded in 1941 and based in Little Rock, Arkansas, is a nonprofit organization whose primary mission is maintaining electric reliability. SPP is one of nine Federal Energy Regulatory Commission (FERC) approved Independent System Operators/Regional Transmission Organizations and one of eight North American Electric Reliability Corporation (NERC) Regional Entities.

Southwest Power Pool Regional Entity (SPP RE), an independent and functionally separate division of SPP, was created to fulfill the functions and duties specified in the SPP Regional Delegation Agreement with NERC originally approved by FERC in 2007 and again in October 2010. As a NERC Regional Entity, SPP RE promotes and works to improve the reliability of the bulk power system (BPS). Specifically, SPP RE is responsible for developing regional reliability standards, monitoring and enforcing registered entity compliance with reliability standards, and assessing and evaluating BPS reliability. SPP RE provides technical expertise and assistance to BPS owners, operators and users, in particular to the approximately 140 registered entities located within the SPP RE's footprint, an eight-state area that includes Arkansas, Kansas, Louisiana, Mississippi, Missouri, New Mexico, Oklahoma, and Texas.

---

Sections A and B of this business plan and budget (BP&B) detail the programs and costs for the activities the SPP RE performs to fulfill the duties specified in the Regional Entity Delegation Agreement between SPP and NERC.

The SPP's RTO activities, which are listed in Section C of this BP&B, are non-statutory, and as such, are not included in the SPP RE's BP&B.

### **Membership and Governance**

Pursuant to the SPP bylaws, SPP RE is governed by three independent Regional Entity Trustees, who are not on the SPP Board and operate separately from the SPP Board. The SPP RE Trustees have autonomy over decisions in fund allocation and approval of the SPP RE budget, as well as oversight of SPP RE decisions on regional standards, compliance enforcement actions, and penalties. The SPP RE's General Manager reports directly to the SPP RE Trustees. Only the SPP RE Trustees and certain direct SPP RE Staff members have the authority to make compliance and enforcement decisions. SPP RE direct staff is independent of all BPS users, owners, and operators.

To avoid the appearance of any conflicts of interest, SPP RE has engaged SERC Reliability Corporation to serve as the compliance enforcement authority for SPP's registered functions in the SPP RE region.

SPP RE's governance, which has been approved by NERC and FERC, meets the requirements of the Energy Policy Act of 2005.

### **Statutory Functional Scope**

SPP RE performs various activities in the execution of its delegated functions and in support of NERC's responsibilities as the electric reliability organization (ERO). These activities include:

- Reliability Standard Development
- Compliance Enforcement
- Organization Registration and Certification
- Reliability Assessment and Performance Analysis
- Training and Education
- Situation Awareness and Infrastructure Security

### **2014 Key Assumptions**

The key assumptions underlying the SPP RE 2014 Business Plan and Budget (BP&B) are consistent with ERO BP&B Assumptions as found in NERC's 2014 BP&B. The assumptions that are of particular importance to the SPP RE's 2014 BP&B include the expectation that:

1. NERC and the Regional Entities will continue to work collaboratively to promote and improve the reliability of the BPS.
2. NERC and the Regional Entities will continue to work under the regulatory framework governing the establishment and enforcement of reliability standards for the BPS established by Energy Policy Act of 2005.

3. SPP RE's delegated authorities and responsibilities will remain relatively constant.
4. NERC and the Regional Entities will work collaboratively to identify additional ways to improve efficiency and leverage overall ERO resources.
5. Cyber and critical asset security will continue to be a priority in the United States, with significant oversight by applicable government authorities.
6. Through efficiency gains and limited additional resources, NERC and Regions will strive to achieve and maintain a 12-month total average processing time for alleged violations over the planning period.
7. In May 2013, NERC filed a one year extension request with FERC to delay the effective date of a uniform BES definition from July 1, 2013 to July 1, 2014. As a result, it is assumed that a uniform BES definition will result in increased workload for the Regions as they deal with exclusion requests in 2014.
8. Cost pressures may affect stakeholder resources available to participate in NERC and Regional Entity activities. NERC and the Regional Entities business plans, budgets, and resource requirements will continue to be established based upon the assumption of continued industry participation in support of key program areas, including but not limited to event analysis, reliability assessments, and standards development.

In addition to the above assumptions, which are shared among NERC and the Regional Entities, assumptions that are unique to SPP RE include:

1. SPP RE continues to operate as an independent and functionally separate division of SPP.
2. SPP RE continues to utilize SPP Shared staff to conduct certain activities in the SPP RE's Reliability Assessment and Performance Analysis program.
3. SPP RE will continue to engage SERC to perform the compliance enforcement authority activities for the SPP registered functions that would otherwise be performed by SPP RE.

Key assumptions specific to individual programs are provided in Section A of this BP&B.

## Goals and Key Deliverables

As part of the implementation of the Electric Reliability Organization Strategic Goals through 2016 (ERO Strategic Plan)<sup>1</sup>, NERC and the Regional Entities developed a set of Common Assumptions<sup>2</sup> that are now used to guide budget resource projections for each regional entity and the ERO overall. In addition to the ERO Strategic Goals, the SPP RE Strategic Plan – 2012-2015<sup>3</sup>, which was developed in a collaborative manner, seeking input from RE staff, RTO staff,

stakeholders, RE Trustees, the SPP Board, and the SPP Strategic Planning Committee, also serves as a guide for SPP RE's planning processes and ongoing actions.

SPP RE-specific goals and deliverables include:

- Effectively and efficiently perform the delegated functions of registration, compliance monitoring and enforcement, reliability assessments, performance analysis, and situational awareness with independence, without conflict of interest, with objectivity and fairness.
- Conduct outreach activities, including compliance workshops, training seminars and videos, and newsletters, that facilitate a learning environment and promote a strong culture of reliability excellence and compliance.
- Identify current “gap” areas for reliability and grid security improvement and pursue implementation through new or revised reliability standards and other SPP RE or NERC processes.
- Participate in NERC-sponsored ERO compliance auditor and enforcement staff training.

### 2014 Overview of Cost Impacts

The \$11.8 million operating budget reflects an approximate \$309 thousand increase or 2.7%. Funding assessments increased by \$1.20 million or 14.1%, from \$ 8.53 million to \$9.73 million. A summary of the funding by program area is shown in the chart below.

Program	Budget 2013	Projection 2013	Budget 2014	Change 2014 Budget v 2013 Budget	% Change

- As shown in the chart that follows, the net decrease in budgeted FTEs is 0.65 and reflects the reduction in the number of SPP Shared Staff FTEs used to help coordinate and facilitate the development of regional reliability standards and the elimination of a part-time law clerk. Other changes in individual program FTEs are primarily due to: 1) redirecting the resources previously focused on the coordination and development of the regional reliability standards to the Training and Education and Compliance program areas, 2) a decrease in the Situation Awareness and Infrastructure Security program to better reflect the actual time spent by RE Direct Staff performing SAIS activities, and 3)

the repurposing of the Executive Director of Compliance position to a Director of Compliance and Events position.

<sup>1</sup>A shared FTE is defined as an employee who performs both Statutory and Non-Statutory functions.

Compared to the 2013 budget, the net decrease in direct expenses and the net increase in SPP, Inc. indirect expenses are approximately \$152 thousands and \$461 thousands, respectively. The decrease in direct expenses is principally due to a decrease in consultant costs. The increase in SPP, Inc. indirect expenses is due to an increase in the indirect expense rate compared to the rate used in preparation of the 2013 budget.<sup>4</sup> Additional information regarding the changes to the SPP RE operating budget is detailed in the Statutory Statement of Activities and Capital Expenditures table on the next page.

<sup>4</sup> A table showing the derivation of the Indirect Expense Rate is presented in Section E.

#### Program Scope and Functional Description

The Reliability Standards Program is required under the Regional Entity Delegation Agreement, as well as NERC Rules of Procedure, Section 300. The 1.0 FTE reduction in this program area is due to the formation of a Reliability Standards Department by SPP, Inc. residing in the RTO. This department was formed in January 2011 and consists of 2.0 FTEs. The RTO Reliability Standards Department facilitates calls to gather comments from members and Registered Entities on standards under development, CANs, standards interpretations, and related issues. In 2012 the Reliability Standards Department held 51 calls with ~900 attendees. Comments drafted during these calls were submitted to NERC on behalf of the group that participated on the call and supported the comments.

The 0.25 FTEs represent the time spent by the Compliance Group staff members (0.15), and SPP Shared Staff (0.10 FTE) on reliability standards development activities. Specifically, SPP RE Staff and SPP Shared Staff coordinate with NERC to develop and maintain technically sound, fair and balanced reliability standards that enable NERC and Regional Entities to measure the reliability performance of bulk power system owners, operators, and users. The staff members assigned to this program also participates in the development of regional standards. The regional standards are developed using the procedures outlined in the SPP RE Standards Development Process Manual, which has been approved by FERC and NERC.

#### 2014 Key Assumptions

The key assumptions concerning the SPP RE's Reliability Standards Program are consistent with the assumptions contained in ERO BP&B Assumptions.

#### 2014 Goals and Key Deliverables

- Meet directives of ERO governmental authorities regarding standards development and procedures;
- Communicate with stakeholders and regulators regarding standards development;

- Participate and represent SPP region in NERC standard development activities that may have significant influence on the planning and business practices of the entities registered with SPP RE

### **Funding Sources and Requirements — Explanation of Increase (Decrease)**

#### Funding Sources (Other than ERO Assessments)

- Funding for this program is provided through assessments to LSEs or designees (mandatory in the U.S.).

#### Personnel Expenses

- The decrease in personnel expenses of \$148,519 is due to less reliance on SPP Inc. for handling the Reliability Standards and redirecting a portion of the allocated resources previously focused on the coordination and development of the regional reliability standards to the Training and Education and Compliance program area.

#### Meeting Expenses

- Meeting Expenses are expected to decrease by \$5,000 to zero to better reflect actual 2012 results, and the completion of the UFLS regional standard drafting team's work.

#### Operating Expenses

- There are no changes in operating expenses for this program, i.e. the budgeted amount remains zero.

#### Indirect Expenses

- SPP, Inc. Indirect Expenses, which are assessed to SPP RE, are based on a fixed rate per hour per FTE. SPP, Inc. Indirect Expenses have been adjusted to reflect the 1.0 FTE reductions in this program area partially offset by the increase in the fixed rate.
- SPP RE Indirect Expenses (SPP RE Administrative Services Expenses) are allocated among the operational programs based on the program's relative share of direct expenses. The change in the SPP RE Indirect Expenses is the result of the program's relative share of direct expenses and the expected increase in the SPP RE Indirect Expenses.

#### Other Non-Operating Expenses

- N/A

#### Fixed Asset Additions

- N/A

### Program Scope and Functional Description

The Compliance Monitoring and Enforcement and Organization Registration and Certification Program (CMEP) is required under the Regional Entity Delegation Agreement, as well as NERC Rules of Procedure, Section 400. There are approximately 140 registered entities with a combined total of approximately 400 registered functions located within the SPP RE's footprint. The SPP RE CMEP is administered by the SPP RE Staff. Only the SPP RE Trustees and certain SPP RE Staff members have the authority to make compliance and enforcement decisions.

To avoid the appearance of any conflicts of interest, SPP RE has engaged SERC Reliability Corporation to serve as the compliance enforcement authority for SPP's registered functions in the SPP RE region. In accordance with the terms of the agreement between SERC and SPP, SPP RE has included \$16,000 in its budget to compensate SERC for performing the 2014 CMEP activities for SPP's registered functions in the SPP RE region.

SPP RE CMEP is organized into three distinct groups: Compliance Monitoring; Critical Infrastructure Protection (CIP); and Enforcement. The SPP RE Director of Compliance and Events is responsible for the oversight of the Compliance Monitoring Group, the Director of Critical Infrastructure Protection (CIP) is responsible for the oversight of the CIP Group, and the SPP RE Manager of Enforcement is responsible for the oversight of the Enforcement Group.

### Compliance Groups

The FTEs assigned to the Compliance Groups are responsible for registering owners, operators and users of the BPS and monitoring and assessing registered entities' compliance with NERC-approved reliability standards. The various activities performed by the staff members assigned to the Compliance groups include: 1) conducting compliance audits, spot checks, and self-certifications of entities registered in the SPP RE footprint, 2) reviewing CIP technical feasibility exception requests (TFEs), periodic data submittals and self-reports made by entities registered in the SPP RE footprint, 3) participating in SPP RE workshops and webinars, and 4) participating in various SPP and NERC working groups. The Compliance Groups also make the initial determination of whether a registered entity is non-compliant with a reliability standard.

A total of 11.10 FTEs are assigned to the Compliance Groups, and include: the SPP RE Director of Compliance and Events, allocated at 0.5 FTEs, five Compliance Monitoring positions, five CIP audit positions, and one Compliance Coordinator. To recognize that staff members assigned to the Compliance Groups are also responsible for participating and representing SPP RE in NERC standard development activities, 0.15 FTE assigned to the Compliance Groups has been allocated to the Reliability Standards program; and to recognize that the Compliance Coordinator is also responsible for assisting in the SPP RE's outreach activities, 0.25 FTE assigned to the Compliance Groups has been allocated to the Training and Education program.

In addition to the SPP RE Staff, SPP RE uses consultants to assist the SPP RE with operations and planning (693) and CIP audits. On average, two consultants participate on each SPP RE onsite 693 and CIP audit team and one consultant participates on SPP's offsite 693 audit team and CIP field tests audit team. SPP RE has included \$430,000 in its budget for compliance consulting costs.

#### Enforcement Group

The FTEs assigned to the Enforcement group are responsible for reviewing the Compliance Groups' findings of non-compliance, notifying registered entities and NERC of possible violations, reviewing and verifying the registered entities' mitigation plans, determining proposed monetary penalties and non-monetary sanctions, and participating in settlement negotiations. The various activities performed by the staff members assigned to the Enforcement Group include: 1) conducting discovery, 2) preparing and issuing Preliminary Notice of Possible Violations, Notice of Alleged Violations and Penalties and Sanctions, and Confirmed Notice of Violation, 3) reviewing, accepting, and verifying completion of mitigation plans, 4) participating in settlement negotiations, 5) participating in hearings of contested violations, as necessary, and 6) participating in various SPP and NERC working groups and SPP RE workshops.

A total of 11.00 FTEs are assigned to this group, and include: the Manager of Enforcement, five enforcement attorneys, one mitigation plan analyst, one mitigation plan engineer, one paralegal, and one temporary enforcement attorney, and two part-time law clerks (an equivalent of 1.0 FTEs). Because violation activity is projected to remain at about the same level as that experienced in 2012 and because of efficiencies gained through compliance enforcement reform initiatives, the Enforcement group is expected to decrease by 0.5 FTE due to the elimination of one part-time law clerk.

In addition to the SPP RE Staff, SPP RE uses consultants to assist SPP RE with reviewing, accepting, verifying completion of mitigation plans, and processing possible violations. SPP RE has included \$120,000 in its budget for compliance consulting costs.

#### **2014 Key Assumptions**

The assumptions for this program are consistent with those contained in ERO BP&B Assumptions. NERC and the Regional Entities will continue to collaborate and define ongoing training needs, priorities, and implementation schedules for the auditors, enforcement, and investigation staff. As part of the training effort, at least two compliance enforcement authority (CEA) workshops and monthly auditor calls will occur to provide auditors and enforcement staff with updates on compliance and enforcement policies, actions, and requirements in order to promote consistency of audit practices and procedures. SPP RE will continue to engage a

contractor to provide training in the application of generally accepted auditing standards. It is expected that this training and possible certification effort will have an impact on staffing needs and costs (e.g., travel, lodging, and labor) to participate and attend this training. SPP RE has provided time for staff to maintain industry certifications, such as NERC System Operator Certification and Critical Infrastructure Protection (CIP) certifications, etc.

Given these key assumptions and based on actual 2012 resource requirements, SPP RE believes the resources assigned to this program area are adequate to achieve the goals and deliverables detailed below.

### **2014 Goals and Key Deliverables**

- Ensure that bulk power system owners, operators, and users are correctly registered through a more proactive review of registration status; seek to ensure that responsibilities are clearly understood by all registered entities and there are no material gaps or adverse impacts on bulk power system reliability;
- Perform six to eight on-site FERC Order 693 compliance audits of registered RC, BA, and TOP entities (3-year cycle entities);
- Perform fifteen to eighteen off-site FERC Order 693 compliance audits of other registered entities (6-year cycle entities);
- Perform six to eight on-site CIP compliance audits of registered entities;
- Perform ten to sixteen off-site CIP compliance audits of registered entities;
- Perform spot check, self-certifications, exception reporting, and periodic data submittals of specified standards as dictated by NERC's 2014 Compliance Monitoring and Enforcement Program Annual Implementation Plan (based on past experience, it is assumed that three Quarterly self-certifications, one Annual self-certification, and five event driven spot checks will be performed);
- Perform Compliance Investigations, as necessary;
- Perform independent review of initial findings of possible violations;
- Create Notices of Alleged Violation and Penalties and Sanctions (NAVAPS) and Notices of Confirmed Violations (NOCV);
- Negotiate and develop settlements of violations;
- Verify that findings of non-compliance are and/or have been appropriately mitigated;
- Serve as SPP RE liaisons to SPP working groups and attend approximately 30 SPP working group meetings in 2014;

- Engage contractors to assist in the evaluation of whether to grant or deny a registered entity's request for a declaration that elements of its system are not part of the Bulk Electric System.
- SPP RE supports NERC's compliance enforcement efficiencies outlined in the March 15, 2013 FERC filing and changes are being made to the Compliance Data Management System (CDMS) to allow for the next steps in the Find, Fix and Track process.<sup>5</sup>
- As a result of an audit assessment performed in 2012, SPP RE and the other seven regions hired a third party firm to obtain the best practices/processes for all regions to use for compliance audits. Based on the assessment, SPP RE did a compilation of best practices obtained from this third party. This was developed into an audit program/practices that will be used across all regions for compliance audits. This is currently being used by SPP RE for their compliance audits.

### **Funding Sources and Requirements — Explanation of Increase (Decrease)**

#### Funding Sources (Other than ERO Assessments)

- Funding for this program is provided through assessments to LSEs or designees (mandatory in the U.S.).

#### Personnel Expenses

- Personnel expenses are expected to increase by \$111,704, which reflects increases of \$86,093 and \$3,444 in salaries and retirement costs, respectively, and increases of \$6,586 and \$15,581 in payroll taxes and benefits, respectively. The increase in salaries is primarily due to the budgeted merit pay increase in 2014 partially offset by the repurposing of the Executive Director of Compliance position to the Director of Compliance and Events. The increase in payroll taxes and retirements costs is due to changes in the rates used to estimate these costs, and the increase in benefits is due primarily to an increase in reimbursement costs incurred by employees to obtain and maintain their job-related professional certifications and licenses.
- Consistent with prior SPP RE BP&Bs, and to help maintain the confidentiality of employees' salaries, the personnel expenses for the Training and Education FTE are accounted for within the Compliance Enforcement and Organization Registration program.

#### Meeting Expenses

- There are no changes in meeting expenses for this program.

#### Operating Expenses

- The net change in Consultant and Contract Expenses is a decrease of approximately \$144,000 or 17% due to the increased productivity of the RE staff resulting from their increased experience plus process efficiencies.

## Indirect Expenses

- SPP, Inc. Indirect Expenses, which are assessed to SPP RE, are based on a fixed rate per hour per FTE. SPP, Inc. Indirect Expenses have been increased to reflect an increase in the fixed rate.
- SPP RE Indirect Expenses (SPP RE Administrative Services Expenses) are allocated among the operational programs based on the program's relative share of direct expenses. The change in the SPP RE Indirect Expenses is the result of the program's relative share of direct expenses and the expected increase in the SPP RE Indirect Expenses.

### Program Scope and Functional Description

The Reliability Assessment and Performance Analysis Program is required under the Regional Entity Delegation Agreement, as well as NERC Rules of Procedure, Section 800. SPP RE direct and Shared Staff members assigned to this program support NERC's efforts in preparing five reliability assessments each year: a long-term reliability assessment (LTRA) report, a summer assessment report, a winter assessment report, and two post-seasonal assessments. These reports analyze electricity demand and the Reliability and Adequacy Assessment Objectives adequacy of supply throughout the North American bulk power system, as well as examine the adequacy of the transmission system. SPP Shared staff also conducts inter-regional studies and other planning studies.

SPP RE is responsible for overseeing and conducting Event Analyses on reliability events within the SPP RE footprint. The analysis may be conducted by the entity involved in the event, an assigned SPP Working Group/Committee, a technical team comprised of industry experts or may be conducted by the RE, NERC or FERC staff. SPP RE is responsible for producing a final technical report on each reportable event. Any issues that surface which may lead to standards compliance questions will be handled through the CMEP portion of this Business Plan.

### 2014 Key Assumptions

SPP RE expects to continue to utilize SPP Shared Staff to assist SPP RE in fulfilling its non-CMEP activities in this program. Key assumptions shared by NERC and the Regional Entities affecting the SPP RE budget in this program area include:

- NERC and the Regional Entities will prioritize and budget for two special reliability assessment initiatives per year;
- SPP RE will continue to support the NERC Reliability Assessment Subcommittee;
- NERC and the Regional Entities will continue to define clear, uniform criteria/ranking for reporting and categorizing of system events and security incidents;

- 
- NERC and the Regional Entities will continue to work together to develop joint processes and resourcing for triage, analysis, and reporting of system events to the regulators and will coordinate with regulators regarding these issues;
  - NERC and the Regional Entities will provide timely publication of lessons learned and recommendations and track responses to recommendations;
  - NERC and the Regional Entities will continue to refine the criteria and process to encourage prompt and complete self-analysis of events and disturbances to promote continuous improvement and information sharing; and
  - The number of events requiring review and analysis are expected to increase.

### **2014 Goals and Key Deliverables**

- Maintain and host a library of solved power flow models, a system dynamics database, and dynamics simulation cases for use by regional reliability organizations and their registered entities to assist with planning and evaluating future systems and current operating conditions;
- Provide regional input to NERC's three reliability assessments each year: a long-term reliability assessment report, a summer assessment report, and a winter assessment report;
- Perform a Probabilistic Assessment in support of the LTRA;
- Participate in NERC meetings to discuss reliability assessment and analyses of the impact of these assessments;
- Conduct inter-regional and other planning studies, including participation in the Eastern Interconnection Reliability Assessment Group (ERAG);
- Participate in NERC's model validation efforts;
- Investigate, assess, and report on the potential impacts of new and evolving electricity market practices, new or proposed regulatory procedures, and new or proposed legislation (e.g., environmental requirements) on the adequacy and operating reliability of the bulk power system;
- Maintain a working dialog on bulk power system reliability and adequacy issues with SPP members; and
- Participate actively in the following NERC working groups/committees/task forces:
  - Event Analysis Subcommittee (EAS)
  - Reliability Assessment Database Working Group (RADWG)
  - Reliability Assessment Subcommittee (RAS)
  - Performance Analysis Subcommittee (PAS)
    - Generator Availability Data System Working Group (GADSWG)

- Transmission Availability Data System Working Group (TADSWG)
- Demand Response Availability Data System Working Group (DADSWG)

### **Funding Sources and Requirements — Explanation of Increase (Decrease)**

#### Funding Sources (Other than ERO Assessments)

- Funding for this program is provided through assessments to LSEs or designees (mandatory in the U.S.).

#### Personnel Expenses

- Personnel Expenses for this program increased by \$170,309 as a result of a 0.63 FTE increase coupled with the budgeted merit pay increases for existing employees. The 0.63 increase in the RAPA program's FTEs is due to the allocation of 0.50 FTE for the SPP RE Director of Compliance and Events and a reduction in the FTEs allocated from the RAPA program to the SAIS program.

#### Meeting Expenses

- Meeting expenses, specifically budgeted travel expenses, are expected to decrease by \$8,000 to reflect a proper balance between actual 2012 results and expected 2013 expenses. .

#### Operating Expenses

- Operating Expenses, specifically budgeted consultant expenses, are expected to decrease by \$248,150 to reflect a proper balance between 2012 results and actual expected 2013 expenses and for the delay in the effective date of a uniform BES definition.

#### Indirect Expenses

- SPP, Inc. Indirect Expenses, which are assessed to SPP RE, are based on a fixed rate per hour per FTE. SPP, Inc. Indirect Expenses have been increased to reflect an increase in the fixed rate and an increase in the FTEs.
- SPP RE Indirect Expenses (SPP RE Administrative Services Expenses) are allocated among the operational programs based on the program's relative share of direct expenses. The change in the SPP RE Indirect Expenses is the result of the program's relative share of direct expenses and the expected increase in the SPP RE Indirect Expenses.

#### Fixed Asset Additions

### Program Scope and Functional Description

The Training, Education, and Operator Certification Program is required under the Regional Entity Delegation Agreement, as well as NERC Rules of Procedure, Section 900. The 1.0 FTE in this program area represents the time spent by the RE Outreach Coordinator and the Compliance Program Coordinator (0.25 FTE). These SPP Staff design, develop, and conduct training and education via compliance workshops, CIP workshops, webinars, and videos.

Operator Certification Training is provided by SPP RTO staff, and as such, the expenses for this training continue to be excluded from the SPP RE budget and are included in the SPP, Inc. budget.

### 2014 Key Assumptions

SPP RE will continue to conduct outreach activities designed to increase the reliability of the bulk power system located in the SPP RE region. Specific training areas targeted for 2014 include: Lessons Learned, Effective Compliance Cultures, Critical Infrastructure Protection, Self Reports & Self Certifications, Currently Monitored Standards, and an Online “The Basics” Video Series.

### 2014 Goals and Key Deliverables

- Host a minimum of two compliance workshops;
- Host a minimum of one CIP workshop;
- Participate in NERC and other Regional Entities training and educational programs, as necessary;
- Publish monthly news bulletins and monthly newsletters for registered entities;
- Host a minimum of five compliance webinars; and

- Maintain an online video series designed to assist registered entity staff new to compliance program with basic information about the ERO enforceable compliance program, including standards development, compliance audits, and mitigation plans.

### **Funding Sources and Requirements — Explanation of Increase (Decrease)**

#### Funding Sources (Other than ERO Assessments)

- Funding for this program is provided through assessments to LSEs or designees (mandatory in the U.S.).

#### Personnel Expenses

- To help maintain the confidentiality of employee's salaries consistent with SPP RE's past BP&Bs, the personnel expenses for the Training and Education FTEs are accounted for within the Compliance Enforcement and Organization Registration program.

#### Meeting Expenses

- Meeting Expenses are expected to increase by \$5,000 due to an expected increase in meeting costs to reflect the trend in increased participation at SPP RE workshops.

#### Operating Expenses

- There are no changes in operating expenses for this program.

#### Indirect Expenses

- SPP, Inc. Indirect Expenses, which are assessed to SPP RE, are based on a fixed rate per hour per FTE. SPP, Inc. Indirect Expenses have been increased to reflect an increase in the fixed rate.
- SPP RE Indirect Expenses (SPP RE Administrative Services Expenses) are allocated among the operational programs based on the program's relative share of direct expenses. The change in the SPP RE Indirect Expenses is the result of the program's relative share of direct expenses and the expected increase in the SPP RE Indirect Expenses.

### Program Scope and Functional Description

The Situation Awareness and Infrastructure Security Program is required under the Regional Entity Delegation Agreement, as well as NERC Rules of Procedure, Section 1000.

NERC coordinates electric industry activities to promote critical infrastructure protection of the bulk power system in North America. NERC has a leadership role in the critical infrastructure protection of the electricity sector to reduce vulnerability and improve mitigation and protection of the electricity sector's critical infrastructure. NERC acts as the electricity sector's Sector Coordinator and operates its Information Sharing and Analysis Center to gather and communicate information about security-related threats within the sector, United States and Canadian governmental authorities, and other critical infrastructure sectors. NERC also performs security planning activities focused on the critical infrastructure protection of the electricity sector, including sharing sensitive or classified information with federal, state, and provincial governmental authorities.

SPP Reliability Coordinator actively participates in NERC critical infrastructure protection activities and serves as an information conduit between NERC and SPP members. These activities are non-statutory. SPP also sponsors a Critical Infrastructure Protection Working Group (CIPWG), which:

- Serves as an expert advisory panel to the SPP Board of Directors, committees, and members, provides a forum for discussion of physical and cyber security issues within the SPP Region;
- Provides general guidance to SPP members on CIP Standards and related compliance efforts; and
- Serves as the interface between the NERC Critical Information Protection Committee (CIPC) and the SPP membership, including:
  - Serving as a conduit for information flow between the CIPC and SPP members

- Developing guidance and recommendations to CIPC members representing the SPP

The CIPWG consists of SPP members who are subject to the NERC CIP Cyber Security Standards (CIP-002 through CIP-009) and is facilitated by an SPP staff member. The working group meets quarterly at a member location. Additional meetings and conference calls are scheduled as required.

SPP RE is represented on the CIPC by three SPP member company representatives who represent the physical, cyber, and operations disciplines. Per the SPP Bylaws, SPP RE reimburses the member representatives for travel expenses incurred while performing CIPC responsibilities.

CIP compliance monitoring and enforcement is included in Compliance Monitoring and Enforcement and Organization Registration and Certification Program.

### **2014 Key Assumptions**

In addition to the assumptions that are shared among NERC and the Regional Entities, SPP RE expects the continued support of the SPP CIPWG, and continued support for CIPC participation from designated SPP member representatives.

### **2014 Goals and Key Deliverables**

- Continue sponsoring the Critical Infrastructure Protection Working Group (CIPWG)
  - Continue quarterly meetings
  - Maintain and Increase CIPWG membership
  - Provide progress updates on CIP standards drafting
  - Provide a discussion forum for NERC-requested comments and ballot issues
  - Provide support to the RE-sponsored CIP “How-To” Workshop
- Provide enhanced support to SPP registered entities about CIP Standards
  - Provide general recommendations on appropriate security best practices
  - Provide opportunities for technical and compliance-related training
  - Provide registered entities-Only discussion periods regarding CIP compliance progress
  - Maintain the CIPWG electronic mail lists for group discussion of CIP-related issues
- Continue supporting CIPC attendance by CIPWG representatives
  - Reimburse expenses for Physical, Cyber, and Operations representatives (or designated alternates)

---

**Funding Sources and Requirements — Explanation of Increase (Decrease)**

## Funding Sources (Other than ERO Assessments)

- Funding for this program is provided through assessments to LSEs or designees (mandatory in the U.S.).

## Personnel Expenses

- Budgeted FTEs for this program are expected to decrease by 0.13 FTEs. The decrease reflects the reduction in the allocation of RE Direct Staff FTEs to this program area to better reflect the actual time spent by staff performing SAIS activities.

## Meeting Expenses

- There are no changes in the budgeted Meeting Expenses for this program, i.e. the budgeted amount remains zero.

## Operating Expenses

- There are no changes in the budgeted Operating Expenses for this program, i.e. the budgeted amount remains zero.

## Indirect Expenses

- SPP, Inc. Indirect Expenses, which are assessed to SPP RE, are based on a fixed rate per hour per FTE. SPP, Inc. Indirect Expenses have been adjusted to reflect an increase in the fixed rate and a reduction in FTEs.
- The SPP RE Indirect Expenses (SPP RE Administrative Services Expenses) are allocated among the operational programs based on the program's relative share of direct expenses. The change in the SPP RE Indirect Expenses is the result of the program's relative share of direct expenses and the expected increase in the SPP RE Indirect Expenses.

**Methodology for Allocation of Administrative Services Expenses to Programs**

The expenses for finance and accounting, information technology, and human resources administrative support services that are provided to SPP RE by SPP (SPP, Inc. Indirect Expenses), which are separate and distinct from the services provided by SPP RE direct staff and consultants and contractors, are assessed to SPP RE based on a fixed rate per hour per FTE. The SPP Indirect Expense rate is calculated by dividing the total costs for these support functions (excluding certain IT costs that are specific to SPP's RTO functions) by the total hours worked by non-support personnel in the entire SPP organization. The indirect expense rate is then multiplied by each hour directly charged to SPP RE by SPP Shared staff and for designated number of hours for SPP RE direct staff. A table showing the derivation of the SPP, Inc. Indirect Expense rate is presented in Section E of this BP&B.

SPP RE Administrative Services Expenses, which are limited to expenses incurred for SPP RE General and Administrative and Legal and Regulatory programs, are allocated among the five operational programs based on the program's pro rata share of the total direct operational program expense.

### Program Scope and Functional Description

SPP RE provides forums for registered entities within its footprint to discuss and share reliability concerns. This includes SPP committees, subcommittees, working groups, and task forces that are grouped by technical areas. The expenses incurred by SPP RE for these forums are included in the direct expenses of the applicable program.

SPP RE also conducts a minimum of three public workshops per year where registered entities are able to interact with SPP RE Staff and NERC staff and discuss reliability issues. These expenses are included in the Training, Education, and Operator Certification Program.

### 2014 Key Assumptions

- SPP RE liaisons to SPP working groups are projected attend approximately 30 SPP working group meetings in 2014.

### 2014 Goals and Key Deliverables

- Provide input on ERO and RE issues, including but not limited to the NERC Members Representative Committee and other NERC standing committees
- Provide technical committee forums to act as standards-drafting teams in development of SPP regional reliability standards

Working Capital Requirement	\$ (1,989,744)	\$ (2,096,173)	\$ (106,429)

### Program Scope and Functional Description

The General and Administrative function consists of the RE General Manager, the RE Manager of Regulatory Interface Process Improvement, RE Administrative Assistant, and three independent Regional Entity Trustees.

The RE Trustees, who are independent of the SPP Board of Directors, any SPP member, SPP registered entity, industry stakeholder, or organizational group, have autonomy over decisions in fund allocation and approval of the SPP RE budget, as well as decisions on regional standards, compliance enforcement actions, and penalties.

The RE General Manager provides executive level support through, among other means, participation in meetings and conference calls with other Regional Entities and Senior NERC staff. The RE General Manager reports directly to the three independent RE Trustees.

The RE Manager of Regulatory Interface and Process Improvement is responsible for coordinating and developing the SPP RE processes for SPP RE's Regulatory Interface and performing process improvement activities for the RE operational program functions. The RE Manager of Regulatory Interface and Process Improvement also coordinates and facilitates the development of compliance plans, policies, and procedures and implementation of appropriate systems/software for the SPP RE compliance monitoring and enforcement activities to enhance implementation of the NERC Compliance Monitoring and Enforcement Program (CMEP) and Rules of Procedure (RoP).

The RE Administrative Assistants provide support to all SPP RE programs and SPP RE direct staff members.

### 2014 Key Assumptions

- SPP RE continues to operate as an independent and functionally separate division of SPP

### 2014 Goals and Key Deliverables

- Ensure that SPP RE fulfills the responsibilities of the Regional Delegation Agreement between SPP and NERC;
- Ensure that SPP RE is adequately staffed and has the resources needed to fulfill the responsibilities of the Regional Entity Delegation Agreement between SPP and NERC; and

- Continue to explore opportunities to enhance the effectiveness and efficiency of SPP RE in promoting and improving the reliability of the bulk power system

### **Funding Sources and Requirements — Explanation of Increase (Decrease)**

#### Funding Sources (Other than ERO Assessments)

- The General and Administrative costs are allocated to the five operational programs resulting in zero funding requirements. The negative Funding amount shown for SPP RE Assessment in the Statement of Activities is the activity relating to the Working Capital Reserve – see Table B-1.

#### Personnel Expenses

- Personnel Expenses in this program area are expected to decrease by approximately \$18,550 to reflect reallocation of 0.25 FTE from the program area to the CMEP program area. The increase in Benefits is based on SPP, Inc.'s proposed allocation of the medical and dental benefit plans.

#### Meeting Expenses

- Meeting and Travel Expenses are expected to remain the same at \$25,000 and \$63,000, respectively between actual 2013 costs and expected 2013 costs.

#### Operating Expenses

- Operating Expenses are expected to increase by \$5,500 due primarily to the purchase of new monitors, office supplies and SPP RE logo apparel for use by staff at regional and NERC functions. In addition, the Regional Executives have made an agreement that beginning in 2014 SPP RE will include an expense of \$40,000 to compensate SERC for a consulting service for the RE Management Group (REMG). The REMG has engaged a full-time employee to perform liaison work among the regions for major project initiatives such as the Reliability Assurance Initiative (RAI), the BES Definition implementation project and other major IT initiatives.

#### Indirect Expenses

- SPP, Inc. Indirect Expenses are assessed to SPP RE based on a fixed rate per hour per FTE. The increase in the SPP, Inc. Indirect Expenses is due to the higher fixed rate and the reduction in budgeted FTEs.

#### Other Non-Operating Expenses

- N/A

#### Fixed Asset Additions

### Program Scope and Functional Description

SPP RE has a Manager of Enforcement and Legal who provides exclusive legal support to SPP RE. The expenses related to the Manager of Enforcement and Legal are included in the Compliance Enforcement and Organization Registration Program area. If SPP RE is required to convene hearings under the Compliance Enforcement and Organization Registration program, independent hearing officers and outside legal counsel may be utilized.

### 2014 Key Assumptions

- Estimated hearing costs are included to support one fully litigated hearing in 2014.

### 2014 Goals and Key Deliverables

- Provide hearing officer if SPP RE is required to convene hearings

### Funding Sources and Requirements — Explanation of Increase (Decrease)

Funding Sources (Other than ERO Assessments)

- The Legal and Regulatory costs are allocated to the five operational programs resulting in zero funding requirements.

### Program Scope and Functional Description

The SPP Information Technology department provides resources for SPP RE to fulfill the responsibilities of the RE Delegation Agreement.

### 2014 Key Assumptions

- The SPP Information Technology department continues to provide resources for SPP RE.
- SPP RE supports the development of NERC's ERO Enterprise IT applications, however, these IT programs are not expected to impact SPP RE's business plan and budget.

### 2014 Goals and Key Deliverables

- To provide adequate information technology support for SPP RE to fulfill the responsibilities of the Regional Entity Delegation Agreement between SPP and NERC.

### Funding Sources and Requirements — Explanation of Increase (Decrease)

Funding Sources (Other than ERO Assessments)

- The costs for IT services to support all RE programs are accounted for within the SPP, Inc. Indirect Expenses. The SPP, Inc. cost for IT services does not include funding for the development of NERC's ERO Enterprise IT applications.

<b>2014 SPP RE Assessment</b>	<u><u>9,219,123</u></u>

<sup>1</sup> Represents collections on or prior to June 30, 2013. See Table B-2 for full disclosure.

<sup>2</sup> The SPP RE does not require a working capital reserve in that on a cash basis SPP, Inc. is able to fund shortfalls in its statutory (Regional Entity) funding through its operating cash balances, and also has access to liquidity through a bank credit facility.

### Explanation of Changes in Reserve Policy from Prior Years

There have not been any changes in the SPP RE Reserve Policy. SPP RE does not maintain a working capital reserve. The expenses incurred by SPP RE are paid by SPP, Inc. from its operating cash balances and then reimbursed from SPP RE statutory funding on a monthly basis. If at any time SPP RE does not have sufficient statutory funds to finance its expenses, the statutory funding will be increased by the amount of the deficiency in the following year. When the funding is received from NERC, the SPP RE General Manager will authorize a reimbursement to SPP, Inc. for the amount of the shortfall. If needed, a line of credit is also available to SPP, Inc. to fund any shortfalls. SPP, Inc. would not charge any interest or penalties to SPP RE in the case of a shortfall.

**Breakdown by Statement of Activity Sections**

The following detailed schedules are in support of Statement of Activities and Capital Expenditures on page 8 of the 2014 RE Business Plan and Budget. All significant variances have been disclosed by program in the preceding pages.

**Penalty Sanctions**

Penalty monies received prior to June 30, 2013 are to be used to offset assessments in the 2014 Budget, as documented in the NERC Policy – ACCOUNTING, FINANCIAL STATEMENT AND BUDGETARY TREATMENT OF PENALTIES IMPOSED AND RECEIVED FOR VIOLATIONS OF RELIABILITY STANDARD. Penalty monies received from July 1, 2013 through June 30, 2014 will be used to offset assessments in the 2015 Budget.

All penalties received prior to June 30, 2013 are detailed below, including the amount and date received.

Allocation Method: Penalty sanctions received have been allocated to the following statutory programs to reduce assessments: Reliability Standards; Compliance Monitoring & Enforcement and Organization Registration & Certification; Reliability Assessments and Performance Analysis; Training, Education and Operator Certification; and Situation Awareness and Infrastructure Security. Penalty sanctions are allocated based upon the number of FTEs in the Program divided by the aggregate total FTEs in the Programs receiving the allocation.

**Explanation of Significant Variances – 2014 Budget versus 2013 Budget**

The increase in salaries is principally due to promotions, and a 3% budgeted merit pay increase which were partially offset by the repurposing of the Executive Director of Compliance position to the Director of Compliance and Events. The variances in benefits and retirement are due to the change in salaries and an increase in the Health Care benefit costs (from \$629 to \$689 per month per FTE).

**Explanation of Significant Variances – 2014 Budget versus 2013 Budget**

The \$223,150 decrease in consultant and contracts costs is primarily due the reduction in budgeted consultant costs engaged to assist the SPP RE direct staff in the administration of its CMEP and RAPA programs. An increase in its direct staff's experience level coupled with process improvement efficiencies, SPP RE has reduced its reliance on consultants.

## Explanation of 2014 and 2015 and 2016 Projections

At this time, SPP RE anticipates that material changes to its 2014 and 2015 budgets will be likely be limited to inflationary costs adjustments and budgeted merit pay increases.

Section C – Non-Statutory Activities  
2014 Business Plan and Budget

## Section C — 2014 Non-Statutory Business Plan and Budget

### **Non-Statutory Functional Scope**

As discussed in the Introduction, SPP is one of nine FERC-approved Independent System Operators/Regional Transmission Organizations (ISOs/RTOs). As an RTO, SPP helps ensure reliable supplies of power, adequate transmission infrastructure, and competitive wholesale prices of electricity. These activities are budgeted for separately from SPP RE and constitute the non-statutory activities further described below.

### **Membership and Governance (for non-statutory activities)**

SPP is a relationship-based organization with member-driven processes offering independence through diversity in Organizational Group membership and recognition that reliability and economic/equity issues are inseparable. SPP strives to continuously improve and implement new concepts in a deliberate evolutionary manner.

SPP membership is voluntary and open to any electric utility, federal power marketing agency, transmission service provider, any entity engaged in the business of producing, selling and/or purchasing electric energy for resale, and any entity willing to meet the membership requirements, including execution of the Membership Agreement. Membership is also open to entities eligible to take service under the SPP Open Access Transmission Tariff (OATT). SPP offers its Members greater efficiency and service reliability through better coordination.

SPP members serve over 5 million customers across nine states: Arkansas, Kansas, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, Oklahoma, and Texas.

SPP is governed in accordance with its Bylaws by an independent Board of Directors consisting of seven directors independent of any SPP Member. The Board of Directors works to ensure equity to all Members and acts in the best interest of SPP through its management, control and direction of the general business of SPP.

### **Non-Statutory Functional Scope**

SPP is mandated by the Federal Energy Regulatory Commission (Commission) to ensure reliable supplies of power, adequate transmission infrastructure, and competitive wholesale prices of electricity.

SPP provides the following primary services to our members and customers:

Tariff Administration: SPP provides independent administration of the Open Access Transmission Tariff that offers one-stop shopping for regional transmission service with consistent rates and terms.

Reliability Coordination: SPP monitors power flow throughout our footprint. We anticipate problems and take preemptive action to mitigate operating limit violations. SPP coordinates regional response in emergency situations or blackouts.

Regional Scheduling: SPP ensures that the amount of power sent is coordinated and matched with power received. SPP's regional scheduling service reduces the number of entities with which SPP members and customers have to coordinate.

Market Operations: SPP administers an Energy Imbalance Marketplace, monitors resource/load balance and ensures that less expensive power is used to serve load before expensive power, all while ensuring system reliability is met.

Expansion Planning: SPP's planning process seeks to identify system limitations and develop transmission upgrades for increased capacity.

Contract Services: SPP provides reliability, tariff administration, and scheduling for non-members on a contract basis.

Finally, as a Public Utility under the Federal Power Act, SPP is required to submit its budget to the Commission. The Commission already has approved SPP's activities and has ordered that SPP's budgets be filed with the Commission.<sup>6</sup>

### **Schedule for Preparation and Approval of SPP Inc.'s Overall Annual Budget**

SPP's overall annual budget is prepared on a budget cycle to be approved by its independent Board of Directors annually at its October meeting. Because of this timing difference with the NERC budget process SPP is unable to provide an accurate 2014 SPP budget for non-statutory activities at this time. The process begins during the second quarter when the SPP staff develops preliminary non-statutory budgets. During the third quarter the Finance Committee of SPP initially reviews and evaluates the budget prepared by SPP staff. Once the budget is approved by the Finance Committee, it is presented to the Board of Directors for their review and approval at its quarterly meeting held in October. The SPP overall annual budget is then submitted to FERC for approval. Because the 2014 SPP budget is not yet available, SPP is providing its Commission-approved 2013 budget and its 2012 actual results on the following table:
