Organizational Overview

Texas Reliability Entity, Inc. (Texas RE) is a Texas non-profit corporation that is the Regional Entity and Reliability Monitor for the Electric Reliability Council of Texas, Inc. (ERCOT) region, pursuant to its Amended and Restated Delegation Agreement (Delegation Agreement) with North American Electric Reliability Corporation (NERC). Texas RE's <u>current</u> Delegation Agreement was approved by the Federal Energy Regulatory Commission (FERC) in <u>Octoberen May 6</u>, 2010 for <u>an additional</u> five-year period beginning January 1, 2011. Texas RE's purpose is to strive to ensure reliability of the ERCOT region bulk-power system (BPS).

Texas RE also performs non-statutory activities as the Reliability Monitor for the ERCOT region, pursuant to its Agreement with the Public Utility Commission of Texas (PUCT) and ERCOT (the independent system operator for the ERCOT region), dated July 1, 2010. As the Reliability Monitor, Texas RE monitors and reports to the PUCT regarding market participants' compliance with reliability-related ERCOT Protocols, Operating Guides, and Texas rules (ERCOT Regional Rules).

The ERCOT region is the geographic area located within the state of Texas that operates under the jurisdiction of the PUCT and is not synchronously interconnected with any electric utilities operating outside of Texas. The ERCOT region includes approximately 85% of Texas load and 75% of the Texas land area.

Membership and Governance

Members

Texas RE has the following six membership sectors under its Bylaws:

- System Coordination and Planning
- Transmission and Distribution
- Cooperative Utility
- Municipal Utility
- Generation
- Load-Serving and Marketing

Membership in Texas RE is voluntary and open to any entity that is a user, owner, or operator in the ERCOT region BPS, who registers with Texas RE and complies with the Texas RE Bylaws requirements. Texas RE charges a nominal fee for membership, but the membership fee can be waived upon good cause shown. Any person or entity that has a direct and material interest in the BPS has a right to participate in the Texas RE Standards Development Process, even if not a Texas RE member.

Texas RE has two stakeholder committees, the Member Representatives Committee (MRC) and the Reliability Standards Committee (RSC). The MRC includes representatives from members in each of the six membership sectors and provides advice and recommendations to the Board on administrative, financial, reliability-related, or any other matters, except for standards development issues, through its elected Chair and Vice Chair, who serve as directors. The RSC includes representatives from the six sectors described above, whether or not members of Texas RE, which may include any entity with a direct and material interest in the ERCOT region BPS. The RSC facilitates the Regional Standards Development Process, and coordinates the development of regional standards and variances with the development of national standards. A subcommittee of the RSC, the NERC Standards Review Subcommittee (NSRS), monitors, reviews, and discusses NERC (continent-wide) standards under development and standards interpretation requests.

Board of Directors

Texas RE is governed by a hybrid board of directors (Board), comprised of the following nine (9) directors:

- The Texas RE President & Chief Executive Officer
- Four (4) Independent Directors (elected by membership)
- Two (2) Member Directors (the Chair and Vice-Chair of the Member Representatives Committee)
- Chairman of the PUCT or another PUCT Commissioner designated by the Chairman, as an ex officio non-voting member
- Texas Public Counsel, from the Texas Office of Public Utility Counsel, as an ex officio non-voting member

The Board's primary role is to oversee the management of Texas RE, including assuring that Texas RE meets its requirements under the Bylaws and Delegation Agreement, and electing a chief executive officer to manage and be responsible for the day-to-day on-going activities of Texas RE.

Statutory Functional Scope

In accordance with its Delegation Agreement with NERC and in compliance with the NERC Rules of Procedure (NERC ROP), Texas RE performs the following statutory (or delegated) functions:

- Participation in the development of NERC Reliability Standards (Standards), or modifications thereof, and facilitation of developing needed regional standards or variances through Texas RE's Standards Development Process.
- Identification and registration of responsible entities with NERC and, as needed, certification of such entities within the ERCOT region.
- Monitoring and enforcement of compliance with approved Standards and regional standards, in accordance with the NERC ROP, in the ERCOT region.
- Analysis and assessment of system events and disturbances.
- Assessment of the present and future reliability, adequacy, and security of the BPS.
- Promotion of effective training and education of personnel, and assistance in the certification of operating personnel.
- Promotion of situation awareness and the protection of critical infrastructure.

Draft 21.0 Final, Approved June 14, 2013

2014 Overview of Cost Impacts

In developing the Texas RE 2014 Business Plan and Budget, Texas RE, NERC, and the other Regional Entities collaborated and agreed upon common foundational and program assumptions which are contained in the <u>Shared Business Plan and Budget Assumptions</u> for the 2014-2016 Planning Period, which is available on the NERC website. Texas RE used these shared assumptions as well as the Electric Reliability Organization Enterprise Strategic Goals in developing this 2014 Business Plan and Budget.

Overall, the Texas RE 2014 statutory expenses (\$11,<u>992,461815,393</u>) increased by <u>5.84.24</u>% over the 2013 statutory expenses (\$11,334,791). The increase is primarily due to increases in rent, salary and benefits, leased equipment, and professional services. Rent escalates in accordance with an escalation clause in the lease agreement. Salaries and benefits are increasing due to market adjustments that are the result of the compensation study<u>and</u>, reorganization, annual merit increases. Texas RE is planning to lease laptops and servers when the equipment is fully depreciated instead of buying new equipment. This will cause an increase in Office Costs and a more substantial corresponding reduction in depreciation expense. The increase in Professional Services is primarily due to contingency for the anticipated cost of outside legal counsel for one contested enforcement case, based upon actual experience. The 2014 non-statutory budget (\$970,000) is reduced -from the 2013 non-statutory budget (\$1,029,000), based on the renewal of the Reliability Monitor agreement for 2014-2015.

The 2014 statutory assessment (\$10,509,308347,268) represents an increase from the 2013 assessment (\$8,152,520). The increase in assessment is due to the reduction in the 2013 assessment that was attributable to substantial underspent funds for prior years, which offset the 2013 budget. Because Texas RE ended 2012 close to budget, and in order to continue Texas RE's 60-day cash reserve amount, in accordance with corporate policy, the statutory assessment for 2014 will increase.

Significant statutory expense changes (including capital expenditures) include:

- Personnel expenses are increasing overall by 5.<u>5</u>%. Salaries are increasing 4% due to market adjustments and promotions. Health insurance is expected to increase benefits by approximately <u>11.9%</u>. <u>Reallocation of personnel among departments caused variances from 2013 in most programs</u>. <u>Personnel costs include a two percent (2%) vacancy assumption</u>.
- Meeting and Travel expenses are increasing by <u>22% (\$91,44820% (\$82,653)</u>).

Meeting expense is increasing \$56,897 primarily due to anticipation of offsite meetings relating to contested matters and other meetings required to conduct Texas RE outreach. Travel is increasing \$49,59140,796 or 1412%. The prior budget did not properly reflect necessary travel costs in 2013. Travel to attend meetings is more correctly reflected in the 2014 budget (details for each department in the department explanations). Conference call cost is decreasing \$15,040 or 81% because of IT initiatives to reduce hosting fees by bringing services on premise and being maintained by Texas RE IT staff.

Total Operating Costs are decreasing in 2014 by 3.<u>3</u>26% or \$<u>102,104</u>100,646.
 Depreciation will decrease by \$<u>624,787</u>591,814, primarily due to the shift to leased equipment. Correspondingly, Office Costs will increase by \$<u>279,814262,270</u> or <u>77.872.9</u>%, due to leasing of IT equipment instead of purchasing equipment to replace fully depreciated equipment. Consultants and Contracts are increasing 19.5% to include the consultant for REMG and a contract for the PI software.consistent with 2013. Office rent is increasing 4<u>%</u>,%, pursuant to the lease agreement 4% annual escalation. Professional services will increase 20.822.76% or \$202,175 as contingency for outside counsel for one contested case.

<u>All statutory activity in the 2014 Business Plan and Budget aligns with the NERC Enterprise</u> <u>Strategic Plan.</u>

Program Scope and Functional Description

The Texas RE Reliability Standards program supports the NERC Reliability Standards program and facilitates the development of regional standards and variances, in accordance with the Texas RE Standards Development Process, which was approved as Exhibit C to the Delegation Agreement. Texas RE Standards staff coordinates and publicly posts information regarding the activities of the Texas RE Reliability Standards Committee (RSC), NERC Standards Review Subcommittee (NSRS) and all regional standard drafting teams (SDTs).

The Texas RE Standards Development Process is open to all individuals and organizations that are directly and materially affected by the ERCOT region BPS, with no undue financial barriers and regardless of Texas RE membership status. Texas RE's Standards Development Process provides for fair and due process by providing sufficient public notice of the intent to develop a

Draft 21.0 Final, Approved June 14, 2013

Formatted: Left

regional standard. In addition, all proposed regional standards are posted on the Texas RE Reliability Standards Tracking Site for public comments. The Tracking Site allows all interested parties to access materials related to regional standards and to submit comments on Standard Authorization Requests (SARs) and draft standards during designated commenting periods. The Tracking Site allows members of the Registered Ballot Body to join any open Registered Ballot Pool and to vote online. The Standards Development Process includes an appeals process and an interpretation process.

Texas RE Standards staff supports and participates in the NERC Standards Committee and other NERC activities relating to standards development. Texas RE regularly comments and votes on proposed NERC standards and revisions from its perspective as the Compliance Enforcement Authority, based on recommendations and input from subject matter experts employed by Texas RE.

In addition, Texas RE reviews proposed reliability standards from NERC and other regions, and staff from NERC and other Regional Entities have the opportunity to review proposed Texas RE regional standards. This Program area supports and facilitates meetings of the Texas RE RSC and the NSRS. The RSC is a stakeholder committee that oversees the execution of the Texas RE Standard Development Process. The NSRS provides a regional stakeholder forum for education and discussion of NERC standards activities, both regional and continent-wide.

Texas RE Standards staff provides education and advice to other Texas RE departments regarding issues relating to standards, including applicability and interpretation of requirements in accordance with NERC processes.

2014 Key Assumptions

The Reliability Standards Program incorporates the regional assumptions from the Shared Business Plan and Budget Assumptions of NERC and the Regional Entities.

2014 Goals and Key Deliverables

- Participate in and provide outreach to regional stakeholders regarding nationwide Standard development (including through announcements, meetings and webinars, enhancement to the Texas RE website, and expansion of the NSRS), to help ensure that ERCOT region perspective is represented in continent-wide Standards.
- Facilitate Texas RE participation in NERC standards development activities, including preparation of recommendations for voting and comments on NERC ballots, and provide standards-related expertise to other Program areas.
- Meet all FERC and NERC directives with regard to regional standards development and procedures and maintain effective relationships and communications with the standards staff at NERC and the other Regional Entities.
- Work closely with other Texas RE departments to ensure that staff is appropriately educated and informed regarding proper application and interpretation of standards and requirements while performing functions under the CMEP.

- Develop regional standards program communications that educate and inform stakeholders and support the Texas RE Standards Development program objectives.
- Work closely with NERC and registered entities within the ERCOT region to, when required, develop regional standards that go beyond, add detail to, or implement NERC Reliability Standards; obtain regional variances; and otherwise address issues that are not adequately addressed in NERC Reliability Standards (such as improving fill-in-the-blank requirements).
- Streamline and improve Texas RE's Standards Development Process and associated tools, including consideration of NERC's results-based standards development methodology.
- Continue to enhance communication to and education of the registered entities in the ERCOT region to increase awareness of regional standards development activities and to ensure adequate representation on the Registered Ballot Body.

Funding Sources and Requirements — Explanation of Increase (Decrease)

Funding Sources

 Funding received for this activity is through statutory assessments, penalties, and Texas RE membership dues, which fully funds total expenses and fixed asset requirements.

Personnel Expenses

• The required FTEs remain 2.0 and personnel expenses for this Program are <u>12%</u> <u>less thanconsistent with</u> 2013 <u>due to change in personnel allocation</u>.

Meeting Expenses and Travel Expenses

 Meeting <u>and travel</u> expenses and travel increased 4% for 2014 due to the increase cost of travel.

Operating Expenses

 Operating Expenses decrease by approximately 6% due to decrease in Consultants and Contracts.

Indirect Expenses

• Expenses related to indirect programs have been allocated proportionately based on FTE count to the direct programs for 2014.

Other Non-Operating Expenses

• N/A

Fixed Asset Additions

• <u>N/A</u>The change in fixed assets for this Program increased by \$3,215.

Draft 21.0 Final, Approved June 14, 2013

Reliability Standards Program

Funding sources and related expenses for the reliability standards section of the 2014 business plan are shown in the table below.

Program Scope and Functional Description

Texas RE's Compliance Monitoring and Enforcement and Organization Registration and Certification Program (CMEP) includes the key activities of registering (and where required, certifying) responsible entities, monitoring and assessing compliance with the NERC Reliability Standards and regional standards, and enforcing and ensuring mitigation of violations of Standards in accordance with the NERC ROP. The primary monitoring and assessment methods include audits, self-reports, self-certifications, complaints, spot checks, compliance investigations, exception reporting, and data submittals.

2014 Key Assumptions

The Compliance Monitoring and Enforcement and Organization Registration and Certification (CMEP) Program incorporates the regional assumptions from the Shared Business Plan and Budget Assumptions of NERC and the Regional Entities.

2014 Goals and Key Deliverables

COMPLIANCE MONITORING

- Perform formal, in depth, compliance audits on a three-year cycle for the Reliability Coordinator, Transmission Operator, and Balancing Authority functions and for any other registered entity identifying Critical Cyber Assets (CCA), and on a six-year cycle for all other registered functions.
- For 2014, perform:
 - 39 non-CIP (693) audits per the updated 2014 schedule
 - 18 CIP audits of entities that have identified CCA (on-site)
 - 21 CIP audits of entities required to be CIP-compliant that have identified no CCA (off-site)
- Perform spot checks where warranted due to system events, complaints, or other reliability concerns.
- Perform no more than one compliance investigation triggered by a significant system event, if warranted, and no more than 15 compliance reviews regarding lesser events or disturbances.
- Continue to work with NERC and other Regional Entities to improve consistency
 of audits and spot checks of registered entities.
- Conduct annual self-certifications of all registered entities.
- Increase coordination with Enforcement regarding all compliance monitoring engagements indicating possible violations.
- Enhance registered entities' understanding of standard requirements by capturing lessons learned from compliance monitoring engagements and distributing to registered entities via training programs, newsletters, and announcements.
- Incorporate appropriate aspects of the Reliability Assurance Initiative (RAI).

ENFORCEMENT

- Assure timely mitigation of all violations, assessing all mitigating activities and mitigation plans for effectiveness and reasonableness of implementation, tracking completion of accepted plans to closure, and verifying completion of mitigation plans.
- Review, validate, and process or dismiss all possible violations in a more timely fashion, to enhance visibility of violations and penalties.

Draft 21.0 Final, Approved June 14, 2013

- Manage all settlements and contested cases to completion, as efficiently as possible. This budget anticipates one contested enforcement matter will occur during the year.
- Coordinate appropriate engineering, other subject matter experts, and legal resources for the processing of alleged violations, including all settlements, appeals, and contested cases.
- Use targeted, aggressive enforcement for the violations posing the most risk to BPS reliability.
- Support the FFT process and any other streamlined mechanisms implemented to expedite possible violations which pose a lesser reliability risk to the BPS.
- Improve the consistency and timeliness of all compliance and enforcement data tracking to enable review and reporting for compliance and enforcement staff, management, the Texas RE Board, NERC, and stakeholders.

REGISTRATION AND CERTIFICATION

- Continue to monitor activity in the region and to register and certify entities in accordance with Texas RE procedures and the NERC ROP, including revisions to registrations and annual maintenance to reflect new and revised NERC standards. The level of activity is expected to be consistent with 2013.
- Continue to work with NERC and other Regional Entities to improve efficiency and consistency in performing registration and certification functions.
- Register new entities associated with generation and transmission facilities that may be planned and constructed during the applicable period, and conduct any required certifications.
- Continue to implement the revised Bulk Electric System definition, including execution of the exception process, handling exclusion notices, tracking the status of exclusions and exceptions, and dealing with related issues.
- Continue to review and investigate facilities and entities in the region to ensure that all applicable entities are properly registered and to ensure that there are no gaps in registration and responsibility for registered functions.

Funding Sources and Requirements — Explanation of Increase (Decrease)

Funding Sources

 Funding received for this activity is through statutory assessments, penalties, and Texas RE membership dues which fully fund total expenses and fixed asset requirements.

Personnel Expenses

• The FTEs are consistent with 2013 for this program. Personnel expenses for the Program are <u>decreasingincreasing</u> 6% due to reorganization and slight modifications of <u>personnel inemployee time allocation to</u> this program area.

Meeting and Travel Expenses

• Meetings and travel for this Program will increase <u>62</u>% over 2013, primarily due to increases in the cost of travel to certain locations.

Operating Expenses

Operating expenses for this Program will decrease by \$206,98783,106 or 229% primarily due to a decrease in depreciation for fully depreciated assets. Professional services will increase for outside counsel -for one contested enforcement case.

Indirect Expenses

• Expenses related to indirect programs have been allocated proportionately based on FTE count to the direct programs for 2014.

Other Non-Operating Expenses

• N/A

Fixed Asset Additions

 The <u>decrease</u> in fixed assets for this program is <u>due to the shift to</u> leasing IT equipment in place of purchasing new equipment. budgeted at \$129,959.

Compliance Enforcement and Organization Registration and Certification Program

Funding sources and related expenses for the compliance enforcement and organization registration and certification section of the 2014 business plan are shown in the table below.

Program Scope and Functional Description

Texas RE's Reliability Assessment and Performance Analysis (RAPA) program provides input to seasonal and long-term reliability assessments for the adequacy of resources and operating reliability of the BPS in the ERCOT region, both existing and planned, as well as review of system events and disturbances that impact the ERCOT region BPS. In addition to support for these assessments and analyses, Texas RE will continue to participate with NERC in ongoing work to evaluate risk and severity from reliability performance, measure progress in improving current reliability and track leading indicators of future reliability. This program requires validation and analysis of data collected from registered entities, which is used in measurement of ongoing reliability performance of generation, transmission, and demand response. RAPA also identifies and analyzes key issues that may affect reliability, such as market practices, legislation, regulation, technology developments, high-impact low frequency (HILF) events, industry trends, or proposed public policy measures. Event analyses will determine causative factors for system disturbances as well as best practices used in preparing or recovering from

them. Texas RE will disseminate these insights to industry and seek broader collaboration among stakeholders to identify and reduce threats to reliability.

2014 Key Assumptions

The RAPA Program incorporates the regional assumptions from the Shared Business Plan and Budget Assumptions of NERC and the Regional Entities. Current staffing levels are expected to meet known and predicted program needs; however, as many RAPA tasks are presently in early stages of definition, program staffing demands are not known. A limited amount of contractor support funding is available to meet new programs or initiatives in the event that supplemental staffing is required once the true scope and schedule of tasks are established. Continued ERCOT stakeholder support is expected in Regional planning activities that meet ERO schedules for seasonal, long-term and probabilistic risk assessments as well as events analysis and performance metrics.

2014 Goals and Key Deliverables

- Provide independent reviews of reliability assessments for the ERCOT region and assist NERC in its overall development of the long-term, winter and summer assessments, along with the post-seasonal reviews.
- Provide independent review of the two anticipated special reliability assessments in 2014, involving topics such as the impact of new technologies and environmental regulations, changes in resource mix, gas dependency, or delays in transmission development.
- Oversee collection of reliability data for the ERCOT Region, provide analysis and validation, and support stakeholders as enhancements for databases and portals are added. Systems include:
 - i. Transmission Availability Data System (TADS),
 - ii. -Generation Availability Data System (GADS),
 - iii. Demand Response Availability Data System (DADS)
 - iv. Spare Equipment Database (SED)
 - v. Event Information Data System (EIDS)
 - vi. Reliability Assessment Data System (RADS)
- Participate in ERO development of an outcome-based approach to achieve measurable improvements in reliability, utilizing the data above and NERC's adequate level of reliability (ALR) metrics. Collect data and perform analysis as needed to evaluate the ALR metrics. The number of metrics and level of analysis is expected to continue to increase in 2014.
- Provide regional data collection and analysis to meet NERC or FERC initiatives, orders or directives. These may include continuing review of high impact/low frequency events (such as geomagnetic disturbances), protection system misoperations, system frequency response, human performance, drought, environmental regulations, single point of failure in protection systems,

characterization of contingent load loss and new technology integration. Additional topics are likely to develop based on emerging reliability concerns.

- Review NERC Standards and process developments, such as the second phase of the Bulk Electric System Definition project. Review proposed Regional criteria and processes for reliability.
- Continue to implement the NERC event analysis process within the ERCOT Region, expecting a similar volume of events as 2013, estimated at 12 Category 1 (minor), three Category 2 or 3 (moderate impact) and 1 Category 4 or 5 event (significant impact). Conduct follow-up on recommendations from past major events within ERCOT and other Regions and event trends associated with events across the ERO.
- Review approximately 80 lesser system events, such as special protection system mis-operations, communications issues, and frequency disturbances, which do not meet the threshold for NERC events analysis, in order to monitor trends and system impacts in these areas.
- Contribute to the implementation of the BES Definition exception process by
 providing technical review of exception requests and coordination internally and
 with other Regions for consistent application. At this time, the number of such
 requests is uncertain but is expected to be handled by existing staff and modest
 contractor support.
- Engage ERCOT stakeholders to identify system issues that lead to reliability concerns, including those identified and prioritized by the NERC Reliability Issues Steering Committee.
- Provide workshops, webinars, and other outreach to support industry participation in RAPA programs and to disseminate lessons learned, best practices, trends and observations.

Funding Sources and Requirements — Explanation of Increase (Decrease)

Funding Sources

 Funding received for this activity is through assessments, penalties, and Texas RE membership dues, which fully funds total expenses and fixed asset requirements.

Personnel Expenses

 The FTEs and personnel expenses will increase by 16%. The increase is due to reallocation of individual employees working in the RAPA and Situation Awareness programs.

Meeting and Travel Expenses

Section A — 2014 Business Plan

 Meeting expenses and travel expenses in support of this Program will increase by \$18,630 –due to required travel increases for NERC and stakeholder meetings.

Operating Expenses

 Operating Expenses for the RAPA Program will increase by <u>\$65</u>,840. <u>This</u> includes fees for-to maintain association fees and license for engineers that was not included in the 2013 budget. <u>Office costs include \$55,000 for the</u> maintenance agreement for PI software.

Indirect Expenses

• Expenses related to indirect programs have been allocated proportionately based on FTE count to the direct programs for 2014.

Other Non-Operating Expenses

• N/A

Fixed Asset Additions

• <u>N/A</u>The increase in fixed assets for this Program will be \$7,635.

Reliability Assessment and Performance Analysis Program

Funding sources and related expenses for the reliability assessment and performance analysis section of the 2014 business plan are shown in the table below.

Program Scope and Functional Description

The Texas RE Training, Education, and Operator Certification program provides education and training primarily focused on implementation of the CMEP (including processes and expectations), application of Standards, lessons learned from event analysis, and other related information pertinent to system reliability and compliance. Texas RE subject matter experts from other Programs provide expertise for educational materials, meetings, and workshops. In addition, Texas RE oversees the ERCOT region operator certification testing program and provides two subject matter experts for the annual ERCOT Operations Training Seminar. The Training, Education, and Operator Certification Program coordinates with NERC and the other Regional Entities to identify training needs of the industry and Regional Entity staff and to ensure consistency in training and education through its participation on the NERC Training and Education Group.

Texas RE will continue to coordinate at least two one-day annual Standards and Compliance workshops and monthly other education and sharing meetings and webinars, including *Talk with Texas RE*, in 2014. The purpose of these workshops, meetings, and webinars is to provide

standards, compliance, and procedural information and expectations, share lessons learned and best practices, obtain feedback from stakeholders, and provide sharing opportunities for registered entities and other stakeholders. Texas RE will use cost effective additional education mechanisms such as webinars, newsletters, and conference calls, and will coordinate presentations by Texas RE subject matter experts at other industry meetings.

2014 Key Assumptions

The Training, Education, and Operator Certification Program incorporates the Shared Business Plan and Budget Assumptions of NERC and the Regional Entities.

2014 Goals and Key Deliverables

- Develop technical materials for and present at least two (2) full-day Standards and Compliance workshops for registered entities.
- Present at least twelve (12) additional workshops, webinars, meetings or other industry outreach, including *Talk with Texas RE* meetings supporting CMEP implementation and any new or modified NERC standards, procedures, or programs.
- Create and publish at least six (6) newsletters that disseminate lessons learned for registered entities and include useful updates regarding standard revisions and interpretations, lessons-learned, other reliability or compliance-related information, and Texas RE and NERC activities.
- Coordinate with and provide Texas RE subject matter experts as a resource for ERCOT regional stakeholder training and NERC compliance working groups.
- Oversee and facilitate the ERCOT System Operator testing program.
- Participate in the NERC-Regional Entity Training and Education Group conference calls and meetings.
- Provide a mechanism for workshop, webinar, and meeting participants and other stakeholders to provide feedback and suggestions to be used to enhance future workshops, webinars, and meetings.

Funding Sources and Requirements — Explanation of Increase (Decrease)

Funding Sources

 Funding received for this activity is through assessments, penalties, and Texas RE membership dues, which fully funds total expenses and fixed asset requirements.

Personnel Expenses

 The FTEs required for this Program will remain 1.75. Personnel expenses will decrease due to reallocation of <u>personnel amongindividual employees working in</u> the <u>departments.</u> <u>RAPA and Situation Awareness programs.</u>

Meeting and Travel Expenses

• Meeting and travel expenses will increase by \$31,236. The 2013 budget did not properly reflect the amount of costs needed for meetings and travel.

Operating Expenses

• N/A

Indirect Expenses

 Expenses related to indirect programs have been allocated proportionately based on FTE count to the direct programs for 2014.

Other Non-Operating Expenses

• N/A

Fixed Asset Additions

<u>N/A</u>Fixed assets will increase by \$2,813.

Formatted: Indent: Left: 0.5", No bullets or numbering

Program Scope and Functional Description

This program includes two distinctly unique parts: Situation Awareness and Infrastructure Security. Situation Awareness covers the assessment of the current condition of and threats to the BPS and development and application of situation awareness tools for monitoring the BPS. Infrastructure Security resources participate in the on-going development of CIP standards, improving regional coordination and cooperation of the CIP program, and to support the NERC-led efforts to develop industry alerts and guidance and to support NERC's role as the Electricity Sector – Information Sharing and Analysis Center. Most of the Texas RE CIP resources functionally reside in the Compliance, Enforcement and Organizational Registration and Certification Program, and much of situation awareness involves initial event review, which is primarily performed as part of the Event Analysis Process, in the RAPA Program.

2014 Key Assumptions

The Situation Awareness and Infrastructure Security Program incorporates the Shared Business Plan and Budget Assumptions of NERC and the Regional Entities.

2014 Goals and Key Deliverables

Draft 21.0 Final, Approved June 14, 2013

- Texas RE staff will continue ongoing monitoring of system data, weather, technological developments, industry news, and media to understand trends that affect reliability both in the near and long term horizon.
- Texas RE's regional implementation of the Situation Awareness for FERC, NERC and the Regional Entities (SAFNR) tool, Phase 2 will be maintained in coordination with ERCOT (the RC) and NERC.
- Texas RE will support utilization of data for Situation Awareness, including regular weekly reporting to NERC along with providing current information on ongoing events in the ERCOT Region.
- Texas RE will continue to monitor and follow up on NERC alerts and anticipates that the volume of alerts will be similar to 2013, or approximately 8, with one the alert expected to require responses and analysis.
- Texas RE's cyber security staff will continue to support initiatives in the Situation Awareness area that concern infrastructure security, working closely with the Electricity Sector – Information Sharing and Analysis Center (ES-ISAC). An example is participation in the NERC Grid-X Security exercise.

Funding Sources and Requirements — Explanation of Increase (Decrease)

Funding Sources

 Funding received for this activity is through assessments, penalties, and Texas RE membership dues, which fully fund total expenses and the fixed asset requirements.

Personnel Expenses

 The FTEs and personnel expenses for the Situation Awareness and Infrastructure Security Program will decrease by \$71,562 from the 2013 Budget; the personnel expenses weredue to being incorrectly budgeted and allocated in 2013.

Meeting and Travel Expenses

Meeting expenses and travel expenses are consistent with 2013.

Operating Expenses

• No operating expenses are allocated to this program.

Indirect Expenses

 Expenses related to indirect programs have been allocated proportionately based on FTE count to the direct programs for 2014.

Other Non-Operating Expenses

N/A

Fixed Asset Additions

• N/A

Section A — 2014 Business Plan

Situation Awareness and Infrastructure Security Program

• The increase in fixed assets for this program is PI tags required for system monitoring.

Draft 21.0 Final, Approved June 14, 2013

Assumptions

The Administrative Services Program is comprised of the following programs: Technical Committees and Member Forums, General and Administrative, Legal and Regulatory, Information Technology, Human Resources, and Finance and Accounting.

This program incorporates the Shared NERC and the Regional Entities' Methodology for Allocation of Administrative Services Expenses to Programs.

• Texas RE allocates its indirect expenses to the functional/direct areas proportionately based on FTE count. Each direct activity receives a pro-rata allocation of expense based on its FTEs compared to total FTEs.

Draft 21.0 Final, Approved June 14, 2013

- Texas RE maintains the Fines and Penalty money collected and it is used to reduce the amount of the assessments to the region.
- Fixed assets that benefit the entire corporation that are not specific to any one activity/function will be allocated based on <u>FTEsheadcount</u> to all of the direct activities.

Draft 21.0 Final, Approved June 14, 2013

Total Direct Expenses	\$	-	\$	-	\$	-	
Inc(Dec) in Fixed Assets	\$	-	\$	-	\$	_	
Working Capital Requirement	\$	-	\$	-	\$	-	

Program Scope and Functional Description

This Texas RE Program supports all membership activities, including membership registration and voting, and will continue to facilitate and provide limited administrative support for the eleven (11) member Texas RE Member Representatives Committee (MRC) and its subcommittees, including the scheduling and coordinating of MRC and MRC subcommittee meetings, distributing and posting of meeting materials and minutes, maintaining applicable information on the Texas RE website, and facilitating MRC and MRC subcommittee announcements and communications.

The MRC meets approximately eight times per year to discuss Texas RE business plans, budgets, funding, metrics, and other matters relevant to Texas RE's operations and purpose, including compliance and the reliability of the BPS. The MRC also discusses proposed new or modified NERC processes, procedures, and initiatives. The MRC normally meets prior to the Texas RE Board meetings and provides feedback and input to Texas RE staff and the Board of Directors. The chair and vice chair of MRC are also on the Texas RE Board.

2014 Key Assumptions

This Program incorporates the Shared Business Plan and Budget Assumptions of NERC and the Regional Entities. In addition, regionally specific assumptions include:

- Texas RE will hold approximately eight MRC meetings per year.
- The MRC will not have a significant number of subcommittees.
- Support of the RSC is included in the Reliability Standards Program.
- Meetings will be held at the Texas RE office or, in the case of regional stakeholder meetings, at stakeholder offices, so no outside meeting space will normally be required.

Draft 21.0 Final, Approved June 14, 2013

2014 Goals and Key Deliverables

The goal of the Technical Committee and Member Forums Program is to coordinate MRC and MRC subcommittee meetings, voting, and communications, and to provide and facilitate efficient mechanisms for owners, users, and operators of the BPS to communicate, coordinate and share procedural, reliability and compliance best practices, and to provide input to Texas RE staff and the Texas RE Board of Directors.

Texas RE employees will continue to work with MRC and its subcommittees in 2014 to help define ways to improve reliability in the region. Texas RE will also continue to provide requested support, including coordination of subject matter experts and materials, to other regional stakeholder groups that are focused on reliability, events, or compliance with Standards.

Funding Sources and Requirements — Explanation of Increase (Decrease)

Funding Sources

• N/A.

Personnel Expenses

• Personnel expenses are accounted for under G & A.

Meeting Expenses

• The meeting expenses associated with MRC and committees are reflected under the G&A activity.

Operating Expenses

- There are no significant operating expenses for this area.
- Indirect Expenses
 - Indirect program costs are allocated to the direct programs. This activity fully allocates through the G&A activity allocation.

Other Non-Operating Expenses

Program Scope and Functional Description

This Program includes the President and CEO who carries out the general affairs of Texas RE, including administrative and corporate facilities support, and includes the time and expenses of the Texas RE Board. The President and CEO reports to the Board and is responsible for leading, overseeing and managing the activities of Texas RE, managing relationships with NERC, FERC, registered entities, and other stakeholders, and for making final decisions with respect to non-contested enforcement actions. A significant amount of the CEO's time is expended for and charged to other operational Program activities. A portion of the time expended by the G&A staff is expended for and allocated to core activities including standards, compliance monitoring, enforcement, registration, training, situation awareness, reliability assessment, and performance analysis, training, and other indirect activities.

2014 Key Assumptions

This Program incorporates the Shared Business Plan and Budget Assumptions of NERC and the Regional Entities.

Funding Sources and Requirements — Explanation of Increase (Decrease)

Funding Sources

N/A

Draft 21.0 Final, Approved June 14, 2013

Formatted: Font: Not Bold

Formatted: Normal, Space After: 0 pt

Personnel Expenses

The amount of time personnel are performing direct activities related to standards, compliance monitoring, enforcement, registration, training, situation awareness, and reliability assessment and performance analysis, as well as other indirect activities, is being appropriately budgeted in those respective Program areas. Salaries are increasing due reallocation of personnel amonth the departments, adjustments recommended by the compensation study and a Vice-President position being included in the G & A budget. The position was not included in the G & A budget for 2013.

Meeting and Travel Expenses

Meeting and travel expenses for this program are increasing by \$17,441 due to • the use of outside meeting facilities for legal and board meetings. Increased travel is due to the attendance of employees at more committee meetings and NERC meetings.

Operating Expenses

 Total Operating expenses increased 13%. Consultants and contracts include the REMG consultant fee for 2014, which Texas RE did not have in 2013. Office rent shows a decrease due to 8% being directly charged to Non-Statutory in 2014. Rent was previously charged through indirect charges to Non-Statutory. Professional services include potential fees for board of directors search fees. Depreciation was previously allocated among CMEP, IT and G & A. In 2014, all depreciation will be charged to G & A, which accounts for the 34% increase. Non-statutory deprecation will be charged directly to Non-Statutory in place of flowing through indirect charges in 2014.

Total Operating expenses remain consistent with 2013.

Indirect Expenses

- Indirect program costs are allocated to the direct programs.
- Other Non-Operating Expenses
 - N/A

• **Fixed Asset Additions**

Program Scope and Functional Description

The Legal and Regulatory area provides legal advice, counsel, and governmental and external relations support to Texas RE management, Board, and employees, on all legal and regulatory matters affecting the organization. The Legal and Regulatory group also oversees (1) corporate membership enrollment, meetings and voting; (2) Board meetings, minutes, support, training and other activities; (3) corporate documents and transactions; (4) governmental, regulatory relations and communications; (5) the work of any outside legal counsel; and (6) the prosecution of any contested enforcement matters.

Although the Legal and Regulatory employees report to the General Counsel (including two corporate counsel, an external relations manager, an external relations and training coordinator, a records analyst, a legal support manager, two case managers, and one legal assistant), a significant portion of the time of Legal and Regulatory employees is expended for and allocated to core activities including primarily enforcement, but also compliance monitoring, registration, standards, event analysis, training, and technical committees.

2014 Key Assumptions

This Program incorporates the Shared Business Plan and Budget Assumptions of NERC and the Regional Entities.

2014 Goals and Key Deliverables

Draft 21.0 Final, Approved June 14, 2013

Formatted: Font: Not Bold

- Assist with the prosecution and any appeal of contested enforcement or disputed registration matters.
- Provide timely, useful legal advice to the CEO, the Board, and all Program areas, and provide annual employee and Board ethics and antitrust compliance training.
- Effectively communicate information to the Board, Texas RE members, and registered entities.
- Oversee membership registration, membership voting and meetings, and maintain an accurate roster of members.
- Maintain effective relationships and communications with NERC, FERC, PUCT, and other state and federal representatives, and timely file all documents required by NERC or FERC.

Funding Sources and Requirements — Explanation of Increase (Decrease)

Funding Sources

• N/A

Personnel Expenses

• The budgeted number of FTEs for this Program is 3.0, consistent with 2013. Personnel expenses are decreasing by \$7,889 or 2%. The time Legal and Regulatory personnel perform direct activities related to compliance, enforcement, training, and registration are budgeted in those respective program areas.

Meeting and Travel Expenses

 Meetings and travel expenses are increasing by \$5,927 due to increased travel for NERC, regional entity, and Trades meetings attended by Legal and Regulatory personnel for legal and executive activities.

Operating Expenses

- Operating expenses for Legal and Regulatory are increased by \$15,489 or 70%. The bulk of the increase is contingency for outside counsel for contested cases.
- Indirect program costs are allocated to the direct programs.

Other Non-Operating Expenses

N/A

Fixed Asset Additions

• N/A

Draft 21.0 Final, Approved June 14, 2013

Legal and Regulatory

Funding sources and related expenses for the legal and regulatory section of the 2014 business plan are shown in the table below.

Program Scope and Functional Description

Texas RE's Information Technology (IT) program provides information technology and security support to Texas RE, including the following: hardware (servers, security devices, computers and peripherals), systems (email, storage, backups, networks, electronic security, secure communications, and databases), software, and applications; physical security, electronic security, data center operations, IT & security-related vendor management, strategy, planning, development, and deployment of enterprise systems, application, and training, research, and planning for improvement and efficiency of business process and operations.

Texas RE's approach is to keep its in-house IT staff small and efficiently outsource maintenance, services, and major development to ensure that applications and hardware are well maintained, service levels remain high, costs are controlled, and systems are consistent with business, federal, and regional requirements.

This budget includes operating costs for refreshing all depreciated corporate equipment including: servers, networking equipment and laptops.

2014 Key Assumptions

• Texas RE's IT staff will continue to focus on better leverage of current technology to support business functions and workflow as well as increasing knowledge of industry best practices for security, data management and system administration.

 This Program incorporates the Shared Business Plan and Budget Assumptions of NERC and the Regional Entities.

2014 Goals and Key Deliverables

- Provide IT and security support to all Texas RE's operations, including; IT and security budget; infrastructure; service support; service design and delivery; service transition; and hardware and network security in a secure and efficient manner, with the following strategy:
 - Continue to maintain the appropriate number of employees to oversee the strategy, policies and procedures, service and performance, budget, and vendor management. Cross-train employees to serve as backups and mentors to each other.
 - Continue to outsource IT and security services that are not within the core competencies or IT's cost containment plan, and augment employees with temporary contractors as needed to meet business requirements while developing knowledge of systems through training and experience to reduce the reliance on external vendors.
- Assist business staff with development of webCDMS enhancement requests and other IT-related project requirements, and prioritize and oversee all IT or securityrelated projects.
- Coordinate and share best practices with other Regional Entities and NERC.
- Participate in the design, planning and implementation of ERO Centralized Applications.
- Implement a Security Awareness Program that addresses, through education and training, for social vulnerabilities that pose threats to Texas RE systems.
- Train and support Texas RE staff on software and applications.
- Continue to develop and test failover and disaster recovery methods for all Texas RE systems.
- Improve the usability and functionality of Texas RE's website and Extranet site.

Funding Sources and Requirements — Explanation of Increase (Decrease)

Funding Sources

• N/A.

Personnel Expenses

- The number of FTEs are consistent with 2013. Personnel expenses are increasing due to reorganization and promotions and salary adjustments.
- Training expenses are included in benefits which are increasing to maintain and increase personnel competencies and reduce the reliance on external consultants and vendors.

Meeting and Travel Expenses

Formatted: Space After: 12 pt

Section A - 2014 Business Plan

Information Technology

• Meeting and travel expenses for this Program are increasing by \$7,556 to allow for increased travel to the offsite data center for maintenance, travel for training(s), NERC Meetings, and consultant travel costs. Increased meeting costs are associated with the implementation of a Security Awareness Program for internal staff and Texas RE Contractors. Approximately \$5,000 of the increase represents inclusion of consultant costs incurred during penetration testing. The decrease in conferences calls is the result of IT initiatives to reduce fees.

Operating Expenses

 <u>Overall</u> Operating Expenses are <u>decreasing</u>-increasing due<u>to</u> a shift to leased IT equipment instead of Fixed Asset additions.<u>The office cost category is</u> increasing while depreciation is decreasing.

IT Hosting Fees and Managed Services will be reduced \$57,000062 by bringing hosted services on-premise and maintained by Texas RE's IT Staff. Expenses were reduced by properly sizing the remote data center hosting environment through virtualization using VMWare. <u>ITThese reductions were offset by the inclusion of \$26,576 for ERO Centralized Application hosting is included in the office cost line item.costs.</u>

Professional Services are increasing \$26,576 to better accommodate actual costs of Penetration Testing.

Texas RE will participate in the EROEMG and ERO ITS development of the NERC ERO Enterprise IT applications but no costs are included in this budget for development of the applications.

Indirect Expenses

• Indirect program costs are allocated to the direct programs.

Other Non-Operating Expenses

N/A

Fixed Asset Additions

N/A

Program Scope and Functional Description

The Texas RE Human Resource (HR) program area is responsible for the delivery of all HR functions including: recruitment, staffing, compensation, benefits, health and safety, employee relations, performance management, and employee training and development. HR maintains the Human Resources Information System (HRIS) and the Payroll Master File and ensures Department of Labor compliance with all federal and state requirements.

2014 Key Assumptions

This Program incorporates the Shared Business Plan and Budget Assumptions of NERC and the Regional Entities.

2014 Goals and Key Deliverables

- Recruit highly skilled employees.
- Review and update employee handbook and policies and procedures, as needed.
- Review and manage employee benefit plans.
- Review Texas RE compensation strategy in concert with executive management team to ensure Texas RE remains a competitive employer in its industry.

Formatted: Normal

Draft 21.0 Final, Approved June 14, 2013

• Provide harassment training to managers and employees.

Funding Sources and Requirements — Explanation of Increase (Decrease)

Funding Sources (Other than ERO Assessments) N/A

Personnel Expenses

 The total number of FTEs and personnel expenses are remaining consistent with 2013. <u>In prior years, personnel costs have been charged under G & A.</u> The 2014 HR budget includes \$10,000 for employee education reimbursement<u>and</u> \$10,000 for employee relocation.

Meeting and Travel Expenses

 Meeting and travel expenses will increase by \$9,097. A Human Resources conference with related travel and two (2) webinars are budgeted for 2014.

Operating Expenses

- Operating expenses are <u>increasing in 2014consistent with 2013. No consultants</u> are used for this area, but professional fees are budgeted for compensation studies <u>budgeted under consultants and contracts</u>.
- \$8,750 to support team building events and for company activities to support corporate culture has been budgeted in 2014.

Indirect Expenses

• Indirect program costs are allocated to the direct programs.

Other Non-Operating Expenses

• N/A

Fixed Asset Additions

• N/A

Human Resources

Program Scope and Functional Description

The Finance and Accounting function provides accounting and financial analysis for Texas RE. Texas RE Finance and Accounting personnel are responsible for general accounting and close activities, accounts payable, payroll, fixed asset management, budget preparation and reporting, cash management, and tax reporting. Monthly financial reports and analysis are provided to the CEO, Texas RE managers and the Board.

2014 Key Assumptions

This Program incorporates the Shared Business Plan and Budget Assumptions of NERC and the Regional Entities.

2014 Goals and Key Deliverables

- Work with all Regional Entities to provide consistency in budget submittals to NERC and FERC.
- Provide improved reporting and financial analysis to the Texas RE CEO, Managers and the Texas RE Board.
- Report budget variances to NERC on a quarterly basis.
- Ensure that Texas RE receives an unqualified opinion on the audit of its financial statements.

Funding Sources and Requirements — Explanation of Increase (Decrease)

Formatted: Font: Not Bold

Draft 21.0 Final, Approved June 14, 2013

Funding Sources

• N/A

Personnel Expenses

• The FTEs and personnel expenses for this Program are consistent with 2013.

Meeting Expenses

• Travel expenses are higher in 2014 due to travel for two finance and budget meetings included in 2014.

Operating Expenses

• Operating expenses are slightly <u>higherlower</u> for 2014. <u>A consultant hasNe</u> consultants have been budgeted <u>four (4) months</u> for 2014 resulting in <u>an</u> <u>increasea decrease</u> of \$<u>25,0009,539</u>. Professional fees <u>decreased</u> <u>4.3%increased</u> for commercial insurance and accounting <u>and</u> audit fees. <u>approximately 4%</u>. Office costs include fees for CPA license renewal and continuing education.

Indirect Expenses

• Indirect program costs are allocated to the direct programs.

Other Non-Operating Expenses

• N/A

Fixed Asset Additions

• N/A

Finance and Accounting

Funding sources and related expenses for the finance and accounting section of the 2014 business plan are shown in the table below.

Explanation of Changes in Reserve Policy from Prior Years

• There are no changes in the Reserve Policy from 2013. Texas RE is retaining its 60-day cash reserve requirement and has obtained a \$500,000 line of credit to ensure it has appropriate liquidity for contingencies.

Reserve Balance

•---

Draft 21.0 Final, Approved June 14, 2013

Breakdown by Statement of Activity Sections

The following detailed schedules are in support of the statement of activities on page <u>109</u> of the 2014 Texas RE Business Plan and Budget. All significant variances have been disclosed by program area in the preceding pages.

Texas RE anticipates no variance between budgeted and actual/forecasted results for 2013. The basis for the 2014 budget was based on this information.

Penalty Sanctions

Penalty monies received by June 30, 2013 are to be used to offset assessments in the 2014 Budget, as documented in the NERC Policy – ACCOUNTING, FINANCIAL STATEMENT AND BUDGETARY TREATMENT OF PENALTIES IMPOSED AND RECEIVED FOR VIOLATIONS OF RELIABILITY STANDARD. Penalty monies received from July 1, 2013 through June 30, 2014 will be used to offset assessments in the 2015 Budget.

All penalties received by June 30, 2013 are detailed in exhibit B-2. Allocation Method: Penalty sanctions received have been allocated to the following statutory programs to reduce assessments: Reliability Standards; Compliance Monitoring & Enforcement and Organization Registration & Certification; Reliability Assessments and Performance Analysis; Training, Education and Operator Certification; and Situation Awareness and Infrastructure Security. Penalty sanctions are allocated based upon the number of FTEs in the program divided by the aggregate total FTEs in the programs receiving the allocation.

Table B-2 – Penalty Sanctions

Explanation of Significant Variances – 2014 Budget versus 2013 Budget

- No workshop fees have been budgeted for 2014. Registered entities have been volunteering meeting and workshop location space so there isn't any anticipated expense for Texas RE.
- Membership dues have decreased by \$3,000 due to entities not renewing memberships for all affiliates.

Total Office Costs

\$

<u>374,638 \$ 374,638 \$ 621,954 \$</u>

66.01%

247,315

Explanation of Significant Variances – 2014 Budget versus 2013 Budget

- Office costs are increasing by <u>78066</u>% primarily due to increase in IT-Leased Equipment. Texas RE will lease laptops and computer equipment instead of purchasing new equipment.
- Internet expense was underbudgeted in 2013. The increase in 2014 reflects more accuate costs.

2015 and 2016 Projection Analysis

• Assumes overall workload will remain consistent, even if though the program areas might change, and reflects no additional FTEs and an expense increase of approximately 4% per year.

Draft 21.0 Final, Approved June 14, 2013

Section C — 2014 Non-Statutory Business Plan and Budget

Non-Statutory Functional Scope

Total Funding Requirement

As the ERCOT region Reliability Monitor, Texas RE performs audits, investigations, monthly metrics review, and other monitoring and reporting of market participants' compliance with the reliability-related ERCOT Protocols, Operating Guides, and Texas rules (Regional Rules), under the direction of the Public Utility Commission of Texas (PUCT). Texas RE also monitors the stakeholder Regional Rules creation and modification process and assists the PUCT with comments on proposed changes to rules that impact reliability. Texas RE does not perform any enforcement activities, but, when needed, provides testimony and technical support to the PUCT for its enforcement cases.

Major 2014 Assumptions and Cost Impacts

• Texas RE will continue to be the Reliability Monitor and perform Regional Rules compliance monitoring and reporting for the PUCT in 2014.

1,029,100

970.000

2014 Non-Statutory Goals and Objectives

- Appropriately monitor and report to the PUCT regarding stakeholder compliance with the Regional Rules.
- Implement the 2014 Regional Rules audit plan per the posted schedule.

Draft 21.0 Final, Approved June 14, 2013

- Review and assess system disturbances for potential violations of Regional Rules and report all findings to the PUCT.
- Provide technical expertise to the PUCT for the review and modification of Regional Rules that impact reliability of the BPS.
- Provide technical or testimony support as needed to the PUCT for its enforcement of Regional Rules violations.

Funding Sources

 Funding will be obtained through a contract between Texas RE, the PUCT, and ERCOT, which requires ERCOT to make quarterly fixed fee payments to Texas RE from its PUCT-approved system administration fee. Texas RE's total 2014 non-statutory budget and funding is reduced in 2014 to \$970,000.

Personnel Expenses

 Non-statutory personnel are remaining constant at 5 FTEs, and personnel expenses are consistent to 2013 increasing only 4%. One "FTE" will continue to represent the composite of time spent by employees who report to statutory and G&A program areas.

Meeting Expenses

• Meeting and travel is consistent with 2013.

Operating Expenses

• Operating expenses are consistent with 2013.

Indirect Expenses

 Costs are being charged directly to the expense line item instead statutory allocation of running through indirect expenses in 2014. is consistent with 2013 and remains at 7%.

¹A shared FTE is defined as an employee who performs both Statutory and Non-Statutory functions.

Reserve Analysis — 2013–2014

Texas RE does not have reserves for non-statutory activities, due to contractual provisions ensuring minimal risk for this funding.
