Operating and Working Capital Reserves

- **Adjustment to achieve targeted operating and working capital reserves in 2017 will be a decrease of \$566,073**

- **Policy and Procedure 13: Operating and Working Capital Reserves Policy**
 - MRO's Operating and Working Capital Reserves are identified and quantified each year in the business plan and budget, submitted first to the FAC for review and then to the Board of Directors

- **FAC and Board approved a 30-day reserve for 2017**
 - Budget process “resets” the working capital for the start of the budget year
 - Evaluation of reserves concluded that MRO has a stable stream of revenue and a cash management plan that would effectively bridge funding gaps within an operating budget year
