

Notes

Generator Verification SDT — Project 2007-09

June 16, 2010

Attendees: Gary Kruempel, Brendan Kirby, Dave Kral, Chifong Thomas, Reigh Walling, and Bill Shultz.

1. Reviewed recent Standards Committee actions with respect to Lee Taylor's formal request for authorization to utilize "expedited actions" for Generator Verification project. The SC deferred action and instead requested more background and justification.
2. In light of the SC development, the sub team members on this call offered to update the Consideration of Comments document, citing this would be the more expeditious path. The team members will use the "Summary Consideration" document by Bill Shultz and the "Standard Mapping" document that Dave Kral prepared as a foundation for the updates. As such the following table lists the update assignments:

Team member	Question
Bill Shultz	1
Brendan Kirby	2
Chifong Thomas	3
Gary Kruempel	4
Dave Kral	5
Dave Kral	6
Chifong Thomas	7
Gary Kruempel	8
Brendan Kirby	9

IMPORTANT! Please update your assigned question responses and **DELETE** all other sections of the "C of C" document before sending it to me. This will be a great help when I re-assemble the final document.

3. The sub team reviewed and accepted the suggested edits to the draft PRC-024-1 offered by Gary Kruempel and Brendan Kirby. (copy attached)

4. The team members will work to complete the updates by early next week.
5. Harry will send message to Maureen informing her of the delay.
