

Implementation Plan for NUC-001-2 — Nuclear Plant Interface Coordination

Prerequisite Approvals

There are no other reliability standards or Standard Authorization Requests (SARs), in progress or approved, that must be implemented before this standard can be implemented.

Modified Standards

NUC-001-1 should be retired when NUC-001-2 becomes effective.

Compliance with Standards

Once this standard becomes effective, the responsible entities identified in the applicability section of the standard must comply with the requirements. These include:

- Transmission Operators
- Transmission Owners
- Transmission Planners
- Transmission Service Providers
- Balancing Authorities
- Reliability Coordinators
- Planning Coordinators
- Distribution Providers
- Load-serving Entities
- Generator Owners
- Generator Operators

Proposed Effective Date

NUC-001-2 shall become effective the later of either April 1, 2010 or the first day of the first calendar quarter after applicable regulatory approval; or in those jurisdictions where no regulatory approval is required, the later of either April 1, 2010 or the first day of the first calendar quarter after Board of Trustees adoption.
