

Standards Announcement

Project 2007-17 Protection System Maintenance and Testing Drafting Team – Nomination Period Open

September 1-23, 2011

The Standards Committee is seeking additional industry experts to serve on the Protection System Maintenance and Testing Drafting Team. While anyone may submit a nomination to participate on this team, the specific focus of this solicitation is to add members that represent smaller entities. This team is drafting revisions to PRC-005-1 Transmission and Generation Protection System Maintenance and Testing.

Nominees should have experience in developing, managing, or supporting a maintenance program or a testing program for one or more of the following:

- Generator protection systems
- Transmission protection systems
- Under-frequency load shedding equipment
- Under-voltage load shedding equipment
- Special protection systems

If you are interested in serving on this drafting team, please complete this [nomination form](#) by **September 23, 2011**.

Further details are included on the Project 2007-17 project page:
