### NERC NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION

## Standards Announcement Initial Ballot Window Open July 31–August 10, 2009

Now available at: https://standards.nerc.net/CurrentBallots.aspx

# Project 2009-17: Interpretation of PRC-004-1 and PRC-005-1 for Y-W Electric and Tri-State

An initial ballot window for interpretation of standards PRC-004-1 — Analysis and Mitigation of Transmission and Generation Protection System Misoperations and PRC-005-1 —

Transmission and Generation Protection System Maintenance and Testing for Y-W Electric Association, Inc. and Tri-State Generation and Transmission Association, Inc. is now open **until 8 p.m. EDT on August 10, 2009**.

#### Instructions:

Members of the ballot pool associated with this project may log in and submit their votes from the following page: <u>https://standards.nerc.net/CurrentBallots.aspx</u>

#### Next Steps:

Voting results will be posted and announced after the ballot window closes.

#### **Project Background:**

Y-W Electric Association, Inc. and Tri-State Generation and Transmission Association, Inc. requested an interpretation of the term "transmission Protection System" and specifically whether protection for a radially connected transformer protection system energized from the Bulk Electric System is considered a transmission Protection System and is subject to these standards.

The request and interpretation can be found on the project page: <u>http://www.nerc.com/filez/standards/Project2009-17\_Interpretation\_PRC-004\_PRC-005\_Y-</u> <u>W\_TriStateG&T.html</u>

#### **Standards Development Process**

The <u>Reliability Standards Development Procedure</u> contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.

For more information or assistance, please contact Shaun Streeter at <u>shaun.streeter@nerc.net</u> or at 609.452.8060.
