

Standards Announcement

Updated December 7, 2016

Project 2016-04 Modifications to PRC-025-1

Supplemental SAR Drafting Team Nomination Period Open through December 19, 2016

[Now Available](#)

Nominations are being sought for additional SAR drafting team members through **8 p.m. Eastern, Monday, December 19, 2016.**

Use the [electronic form](#) to submit a nomination. If you experience any difficulties in using the electronic form, contact [Wendy Muller](#). An unofficial Word version of the nomination form is posted on the [Standard Drafting Team Vacancies](#) page and the [project page](#).

By submitting a nomination form, you are indicating your willingness and agreement to actively participate in the SDT meetings. If appointed by the Standards Committee (SC), you are expected to attend most of the face-to-face meetings as well as participate in meetings held via conference calls.

The time commitment for this project is expected to be two to three conference calls in late January 2017. Generator Owners in all regions with a background in protection systems should consider nominating. The area of focus will be wind/solar protection system requirements and protection systems for plants (synchronous & asynchronous) that are remote to transmission (+20 miles) where the line impedance may have an impact on the settings prescribed by the standard. Individuals appointed to the SAR team will be encouraged to nominate for the subsequent standard drafting team.

Next Steps

The SC is expected to appoint members to the team early 2017. Nominees will be notified shortly after they have been appointed.

For information on the Standards Development Process, refer to the [Standard Processes Manual](#).

For more information or assistance, contact Senior Standards Developer, [Scott Barfield-McGinnis](#) (via email), or at (404) 446-9689.
