

Evaluation | Analysis | Assistance | Operating Experience

The changes to the *SERC Regional Reliability Standard Development Procedure* include the following:

- The procedure was removed as Exhibit C in the January 1, 2016 update of the NERC-SERC Delegation Agreement, thus references to the Delegation Agreement were revised accordingly.
- The SERC Reliability Standard Authorization Request (SAR) Form (Appendix C) was updated to match the NERC SAR Form.
- Reliability Principles and Market Principles were updated per NERC's latest versions.
- SERC Committee titles and Process Roles titles were updated to match current SERC committee and organization structure.
- Errata section added to be consistent with other Regional Entity procedures.
- A Roles and Responsibilities chart was added as Appendix H.
- Updated the NERC Functions per the current NERC Compliance Registry.
- Procedure document moved to latest SERC document template for consistent format and appearance.
